

## **ACKNOWLEDGEMENTS**

I would like to take this opportunity to express my grateful appreciation to all those who gave me precious suggestions and helped me to complete this study. First of all, my deepest gratitude and greatest appreciation are owed to Assistant Professor Kittitouch Soontornwipast for his recommendations and supervisions throughout the writing of this study. Last but not least, I would like to devote this study to my beloved aunt, Sommitr Teerathanatorn, who gave me valuable encouragement and support, but left me peacefully without seeing the completion of this study.
