

ภาคผนวกที่ ๘ ปลาแนวปะการังพบบริเวณเกาะแรด หมู่เกาะเสม็ดสาร (๑/๓)					
วงศ์และชนิด	ความชุกชุม	Herbivorous	Omnivorous	Carnivorous	Food sources
Class Elasmobranchii					
Order Rajiformes					
Family Dasiatidae					
<i>Toeniura lymna</i>	Rare			*	mollusks, worms, shrimps, and crabs
Class Teleostomi					
Order Clupeiformes					
Family Engraulidae					
<i>Stolephorus indicus</i>	Common			*	Feeds most likely on zooplankton
Order Mugiliformes					
Family Mugilidae					
<i>Moolgarda seheli</i>	Common	*			microalgae, filamentous algae, forams, diatoms, and detritus
Family Sphyraenidae					
<i>Sphyraena flavicauda</i>	Rare			*	Fishes
<i>Sphyraena</i> Juvenile	Common			*	
Order Beloniformes					
Family Belonidae					
<i>Tylosurus crocodilus crocodilus</i>	Rare			*	Fishes
Order Beryciformes					
Family Holocentridae					
<i>Myripristis hexagona</i>	Rare			*	plankton such as crab larvae at night
<i>Sargocentron rubrum</i>	Occasional			*	Feed mainly on benthic crabs and shrimps
Order Perciformes					
Family Serranidae					
<i>Cephalopholis boenak</i>	Occasional			*	crustaceans and fishes
<i>Cephalopholis formosa</i>	Rare			*	
<i>Epinephelus merra</i>	Rare			*	crustaceans and fishes
<i>Epinephelus unk</i>	Rare			*	
<i>Plectropomus maculatus</i>	Rare			*	Juveniles feed on small fish and invertebrates such as crustaceans and squid
Family Grammistidae					
<i>Diplaprion bifasciatum</i>	Occasional			*	Feeds mainly on fishes.
Family Apogonidae					
<i>Ostorhinchus cavitensis</i> (Yellow)	Occasional			*	small crustaceans and also on small fishes.
<i>Ostorhinchus endekataenia</i> Red	Common			*	small crustaceans and gastropods, also on small fishes.
<i>Archamia fucata</i>	Rare			*	small crustaceans and gastropods, also on small fishes.
<i>Cheilodipterus macradon</i>	Occasional			*	Feeds primarily on small fishes
<i>Cheilodipterus quinquelineatus</i>	Common			*	small crustaceans and gastropods, also on small fishes.
Family Echenoididae					
<i>Echeneis naucrates</i>	Rare			*	small fishes, bits of its host's prey and host's parasites
Family Carangidae					
<i>Selaroides leptolepis</i>	Rare			*	Ostracods, gastropods and euphausiids are common prey but small fish
Family Lutjanidae					
<i>Lutjanus carponotatus</i>	Rare			*	fishes and crustaceans
<i>Lutjanus lutjanus</i>	Rare			*	Feed on fishes and crustaceans
<i>Lutjanus vitta</i>	Rare			*	fishes, shrimps, crabs and other benthic invertebrates.
<i>Lutjanus russelli</i>	Rare			*	They feed on benthic invertebrates and fish
Family Caesionidae					
<i>Coesio cuning</i>	Common	*		*	zooplankton
<i>Pterocaesio chrysazona</i>	Rare	*		*	zooplankton
Family Haemulidae					
<i>Diagrama pictum</i>	Occasional			*	benthic invertebrates and fishes
Family Nemipteridae					
<i>Pentapodus setosus</i>	Occasional		*	*	small crustaceans
<i>Scolopsis ciliatus</i>	Occasional		*	*	benthic invertebrates and small fishes.
<i>Scolopsis margaritifer</i>	Occasional		*	*	crustaceans, polychaete worms, mollusks and small fishes
<i>Scolopsis monogramma</i>	Occasional		*	*	small fishes, crustaceans, mollusks and polychaete worms.
<i>Scolopsis l.</i>	Occasional		*		small fishes, crustaceans, mollusks and polychaete worms.
<i>Scolopsis affinis</i>	Occasional		*		small fishes, crustaceans, mollusks and polychaete worms.
Family Mullidae					
<i>Upeneus tragula</i>	Occasional			*	benthic invertebrates; small crabs, amphipods, shrimps, polychaete worms, and fishes
<i>Parupeneus indicus</i>	Rare			*	benthic invertebrates; small crabs, amphipods, shrimps, polychaete worms, and fishes
Family Pempheridae					
<i>Pempheris oualensis</i>	Common			*	benthic and planktonic crustaceans, other small invertebrates, and fishes at night.
Family Kyphosidae					
<i>Kyphosus vaigiensis</i>	Rare			*	small crustaceans. Adults are carnivorous

ภาคผนวกที่ ๘ ปลาแนวปะการังพบบริเวณเกาะแรด หมู่เกาะแสมสาร (๒/๓)					
วงศ์และชนิด	ความชุกชุม	Herbivorous	Omnivorous	Carnivorous	Food sources
Family Chaetodontidae					
<i>Chaetodon octofasciatus</i>	Common			*	Coral's polyps.
<i>Chaetodon wiebeli</i>		*			algae
<i>Chelmon rostratus</i>	Rare			*	Invertebrate
<i>Parachaetodon ocellatus</i>	Rare			*	Invertebrate
Family Pomacentridae					
<i>Abudefduf bengolensis</i>	Common		*		Feed on algae, gastropods, and small crabs.
<i>Abudefduf sordidus</i>	Rare		*		Feed on algae, crustaceans and other invertebrates
<i>Abudefduf sexfasciatus</i>	Common		*		Feed on zooplankton and algae
<i>Abudefduf vaigiensis</i>	Occasionary		*		Feed on zooplankton, benthic algae, and small invertebrates
<i>Amblyglyphidodon curacao</i>	Rare		*		larval crabs and shrimps, fish eggs, and algae.
<i>Amphiprion perideraion</i>	Occasionary			*	planktonic copepods and algae
<i>Amphiprion akalapis</i>	Rare			*	planktonic copepods and algae
<i>Amphiprion ocellaris</i>	Rare			*	planktonic copepods and algae
<i>Chromis atripectoralis</i>	Common			*	copepods, amphipods, and zoea
<i>Chromis viridis</i>	Occasionary			*	Phytoplankton feeders
<i>Chrysiptera unimaculata</i>	Rare	*			benthic algae
<i>Dasylus trimaculatus</i>	Common		*		algae, copepods, and other planktonic crustaceans
<i>Hemiglyphidodon plagiometopon</i>	Rare	*			algae
<i>Neopomacentrus azysron</i>	Abundance	*			zooplankton and algae
<i>Neopomacentrus cyanomos</i>	Dominance	*			zooplankton and algae
<i>Neopomacentrus filamentosus</i>	Dominance	*			zooplankton and algae
<i>Neoglyphidodon nigroris</i>	Rare		*		algae, crustaceans, and pelagic tunicates and salps.
<i>Plectroglyphidodon lacrymatus</i>	Rare	*			benthic algae, filamentous algae
<i>Pomacentrus coelestis</i>	Rare	*			algae
<i>Pomacentrus chrysurus</i>	Rare	*			algae
<i>Pomacentrus cuneatus</i>	Dominance	*			algae
<i>Pomacentrus milleri</i>	Rare	*			algae
<i>Pomacentrus tripunctatus</i>	Rare	*			algae
<i>Pomacentrus unknow</i>	Rare	*			
<i>Stegastes obreptus</i>	Occasionary	*			filamentous algae
<i>Stegastes apicalis</i>	Common	*			filamentous algae
Family Labridae					
<i>Halichoeres chloropterus</i>	Common		*		hard-shelled prey, including mollusks, crustaceans and sea urchins
<i>Halichoeres margaritaceus</i>			*		benthic crustaceans, mollusks, polychaetes, forams, fishes, and fish eggs
<i>Halichoeres marginatus blue nose</i>	Rare		*		a wide variety of small invertebrates as well as fish eggs
<i>Halichoeres leucurus</i>	Occasionary		*		small benthic invertebrates.
<i>Hemigymnus melapterus</i>	Occasionary		*		small invertebrates, esp. crustaceans, polychaete worms, mollusks and brittle stars
<i>Halichoeres nigrescens</i>	Common		*		small benthic invertebrates.
<i>Halichoeres vrolikii</i>	Rare		*		small benthic invertebrates.
<i>Thalassoma lunare</i>	Rare		*		mainly on small benthic invertebrates and fish eggs
<i>Choerodon schoenleinii</i>	Rare		*		crustaceans, mollusks and sea urchins
Unknow Brown	Rare				
Family Scaridae					
<i>Scarus ghobban</i>	Rare	*			algae reef habitat
Family Gobiidae					
<i>Istigobius ornatus</i>	Rare		*		small benthic invertebrates.
<i>Cryptocentrus cinctus</i>	Rare		*	*	small benthic invertebrates.
<i>Cryptocentrus leptocentrophus</i>	Rare		*	*	small benthic invertebrates.
<i>Cryptocentrus caeruleomaculatus</i>	Rare		*	*	small benthic invertebrates.
<i>Valenciennaea mularis</i>	Rare		*		small benthic invertebrates.
Family Eleotridae					
<i>Amblyeleotris gymnocephala</i>	Rare			*	small benthic invertebrates.
Family Ptereleotridae					
<i>Parioglossus formosus</i>	Abundance		*		zooplankton
<i>Ptereleotris monoptera</i>	Common		*		zooplankton
Family Siganidae					
<i>Siganus guttatus</i>	Rare	*			benthic algae
<i>Siganus doliatus</i>	Rare				benthic algae
<i>Siganus javus</i>	Common	*			benthic algae
<i>Siganus corallinus</i>	Rare				benthic algae
Family Geriidae					
<i>Gerres spp.</i>	Rare		*		worms, clams, crustaceans and also feeds on insects

ภาคผนวกที่ ๘ ปลาแนวปะการังพบบริเวณเกาะแรด หมู่เกาะเสม็ดสาร (๓/๓)					
วงศ์และชนิด	ความชุกชุม	Herbivorous	Omnivorous	Carnivorous	Food sources
Family Pinguipedidae					
<i>Parapercis snyderi</i>	Rare			*	Benthic carnivores of small invertebrates and fishes
Order Siluriformes					
Family Plotosidae					
<i>Plotosus lineatus</i>	Rare			*	crustaceans, mollusks, worms, and sometimes fish
Order Tetraodontiformes					
Family Diodontidae					
<i>Diodon littorosus</i>	Rare			*	Shellfishes
