

## **ACKNOWLEDGEMENTS**

This research paper could not have been entirely completed without the kind support from many relevant people and institutions. I would like to express my heartfelt thanks to my advisor Ajarn Dr. Monnipha Sompong. Her advice, encouragement and tolerance led me to accomplish this research. Also, I would like to express my thankfulness to all my instructors and staffs, especially, Ms. Siriwon Ritruamsup, in the Language Institute at Thammasat University. I highly appreciate all their efforts to provide me with great knowledge and facilities.

Next, cordial thanks are given to the customers at the Office of SMEs Promotion (OSMEP) who kindly answered my questionnaires and more than everything, I would like to express my special gratitude to Mr. Teerapong Ounruen, Director of SMEs Coordination and Services Center at Office of SMEs Promotion. Without his enormous support, I might have struggled with many obstacles regarding studying in this post graduate level. My deepest appreciation also goes to his staff at the SMEs Coordination and Services Center at Office of SMEs Promotion for their help and participation when desperately needed.

I would also express my gratefulness to my entire friends at Thammasat University for their willingness to share information and suggestion, especially from Group 2, who pushed me throughout this study and lightened up the class at all times.

Besides, I would like to express numerous thanks to my boss, director general Jhitraporn Techacharn, the only person who always offers the best opportunity for me. In addition, I would like to extend a lot of thanks to my present colleagues at the Office of SMEs Promotion for their support and understanding.

Last but not least, I am eternally indebted to my beloved family, who has unconditional and limitless love and support which has led me to succeed in many things and of course, in my study.
