

ACKNOWLEDGEMENTS

This research paper could not have been completed without an enduring support from many persons. I would not have been able to complete it without their valuable contribution.

First of all, I would like to express a special word of thanks to Dr. Pattama Sappapan, my research adviser, for her unswerving advice and useful recommendations, despite her busy schedule.

Profound and heartfelt thanks also go to all the instructors at the Language Institute, Thammasat University, for their knowledge and effort given to me during my master's degree study.

I am thankful to the undergraduate students at the Department of Foreign Languages, Buriram Rajabhat University, for their voluntary cooperation in providing necessary information on their motivation.
