

ACKNOWLEDGEMENTS

The last two years became an extremely hard time for me when I had to devote myself to work, study and all aspects of my life. Without the efforts and understanding of the following individuals, this study would not have been successfully conducted.

The first person whom I would like to express my deepest gratitude and appreciation to is Assistant Professor Dr. Pornsiri Singhapreecha, my adviser. She is not only a good teacher but also a good researcher who plans everything for me from the beginning to the end. So many ideas and sentences would not be produced without her, and this study would not have been successful without her facilitation, encouragement and understanding.

I would also like to thank all instructors and all staff at the Language Institute, Thammasat University, especially Khun Add, who always helped and understood me during my tough time. Without her stimulation and attention, this study would never have been produced in the proper time.

I would like to thank Bro. Anant Prichavudhi, the Director of Assumption College, who provided me the opportunity to study and paid his impressive attention to my success. I would also like to thank all my colleagues there to help arrange all work while I was studying.

My sincere thanks go to my best friend, Kay, who always understood and supported me with tremendous patience during this hard time. I would also like to thank Noi and Oak who cooperatively worked with me in the same group during these two years.

I would also like a little space to thank Chopin, my dearest dog, who is my key inspiration to finish my study.

Finally, I would like to express my deepest appreciation and gratitude to my beloved mom who has given me love and support throughout my life and my boyfriend, Doe, who always stands by me, understands, supports and endures me during the hard time of my life for almost half of my life.
