

ACKNOWLEDGEMENTS

This research could not have been beautifully completed without the support of many people. First and foremost, I would like to express my sincere thanks to Assist. Prof. Tanom Tiensawangchai, my great adviser, for his valuable suggestions and encouragement throughout the study. He was always available when I needed advice, provided valuable comments, and never gave up on me. I wish to convey my gratitude to all my teachers, friends, bosses and colleagues, as well as all of the respondents at Siam Square Area for their support and cooperation. Lastly, I really appreciate my family who are always my inspiration and have provided me with great encouragement throughout this study.
