

## ACKNOWLEDGEMENT

I would like to acknowledge and extend my heartfelt gratitude to the following persons who have made the completion of this study possible.

First, I would like to express my gratitude to Thammasat University, the place that gave me education and valuable experience since I studied for a Bachelor Degree until this course in the Master program. Also, I deeply appreciate the Language Institute, including all faculty members and staff, for giving me an opportunity to extend my knowledge by conducting this research and providing me significant research tools and data resources.

I would like to thank Ajarn Dr. Supanee Jivasak-Apimas, for her vital encouragement and support, all the time, in conducting this research.

My friend from Thammasat University for her understanding and assistance, I want to thank her for all her support in the data analysis procedure. Furthermore, I am grateful to my close friends in LITU #9 for all their supports and great help in difficult times. I appreciate the generous help of the linguistic expert who looked closely at the final version of the independent study for English style, grammar correction, and language validity. I would like to express my gratitude to all those people who offered valuable suggestions and kind cooperation throughout the period of the study.

Most importantly, I would like to thank my mother for her devotion and great love she always gives me. She is the only one who made all these things possible.
