

## ACKNOWLEDGEMENTS

This research study could not have been accomplished without the great assistance and cooperation of many people. Firstly, I wish to express my deepest gratitude to my research advisor, Asst. Prof. Dr. Somsook Khongpun, for her guidance, patience, generous comments and encouragement throughout the consulting period.

My deepest gratitude also goes to the respondents who work at Adidas Sourcing Limited, Thailand Representative Office, for their valuable time and information in completing and returning the questionnaires in time.

The project also could not have been completed without the cooperation of my MEC friends whose inspiration and encouragement have contributed to the completion of this paper.

Finally, any mistakes in this study are my own responsibility.
