

ACKNOWLEDGEMENTS

I would like to take this opportunity to express my profound appreciation to the many people who contributed to this study's completion.

Firstly, I wish to thank Asst. Prof. Preeyachat Uttamayodhin who gave me valuable advice and also academic supervision through out this research.

Additionally, I would like to thank all the instructors who willingly educated and supported me throughout the program.

Many thanks go to my dear classmates and all staff; particularly Khun Wan, who greatly assisted me since I started studying here.

High appreciation is given to the respondents, 100 senior Thai undergraduate students at Srinakharinwiroj, who gave me good cooperation in answering my questionnaires thus bringing about the completed study.

Last, but not least, I would like to express my deepest appreciation to my family and my close friends who always encouraged me with good love and strong inspiration during my education at TU. Without them, I would not have made it happen.
