

ACKNOWLEDGEMENTS

This study would not have been completed without Assistant Professor Vilaivan Roongruangratana Aroonmanakun, my adviser for this study, and Dr. Supanee Jivasak-Apimas, my research methodology teacher. They both gave me valuable advice and comments that helped me complete this research. I am also grateful to Assistant Professor Dr. Supong Tangkiengsirisin, my writing skill development teacher, who helped me improve my writing skill which is essential to do the research successfully.

I would like to thank my high school English tutor, Ajarn Marasri, who made me believe that improving one's English is not impossible in spite of the difficulties.

My sincere thanks go to my former editor-in-chief, Choawalit Bunchaunchit, for helping me deal with time management and encouraging me to do my best, as well as to my classmates for questionnaire distribution, sharing knowledge and a lot of caring calls.

I truly thank my family, my father, my mother and my sister who have always believed in me and support me throughout my M.A. program.
