

ACKNOWLEDGEMENTS

This study would not be completed without the support and encouragement of many people who had faith in me, believing that I could finally get through this “Moment of Time”.

First of all, I would like to express my deepest gratitude to my family and friends who always understood and gave me invaluable encouragement that boosted my emotional strength to overcome any difficulties that occurred during conducting the research study.

Secondly, I am deeply indebted to my advisor, Ajarn Monnipha Sompong, for her valuable comments and advice that were passed on to me during the whole process of my Independent Study.

I would like to thank the teachers from Samsen Withayalai School, Mathayom Watdusitaram School and Howang School who granted me permission to distribute questionnaires to their students. I was also most grateful to Ajarn Sujitra, Ajarn Prakrit and the librarian who helped me distribute the questionnaires to their students. Additionally, I owe a debt of gratitude to the students, without whose participation this research study could not have been accomplished.

Lastly, I would like to thank myself who patiently looked after myself and calmed the worry arising under a number of circumstances.
