

Abstract

The study, "Opinions of the People Concerned in Prevention and Suppression of Fuel Perpetration" has its objectives to study the problem status of the fuel perpetration, form and development of perpetration, as well as to study the opinion of the people involved appropriately and immediately depending on circumstances of present time to offer appropriate measures in prevention and suppression of fuel perpetration. The effective prevention can empower state revenue collection. This study is a qualitative research made with documentary study and to have qualitative data as well as to interview 14 people from private sector specialists, police officers from prevention and Suppression Center (former) and personnel from state who are involved.

The study found that the problems and forms of perpetration relating to fuel are varied, for instance, smuggling of illegal fuel, tax fraudulent, hydrocarbon solvent fuel, and circular ticket. On the resolution and prevention, the interviewed suggested to set up an organization in prevention and suppression of fuel perpetration in three methods: 1. Set up a permanent organization with independence, not under the administration. 2. Set up a permanent organization directly under the administration, for example, the Prime Minister or any Minister of any Ministry. The reason why it should be esteble us a perment organist is because the Law empowers only the officials who work under a permanent organization. A permanent organization will be legally authorized to completely investigate and arrest from the beginning to the completion of the process and authorized officers can call for, confiscate and seek for information required. Any organization ignoring of cooperation will be a delinquent or claimed to be official work obstruction. 3. Set up a temporary organization or an extra task unit in case of violence, the extra task may arrest and suppress them immediately. If the violence is diminished or calmed, the extra task unit can be decreased in power or terminated.

The suggestion from this study is that the operation should be devided into two phases : Short-term plan; establish temporary organization in prevention and suppression to cope with the problems threatening the country economics particularly,

tax and state income problems that causes the country B. 6,000 million each year. Long-term plan; Establish permanent organization reporting directly to the Administration; for instance, the Prime Minister, the office of the Prime Minister or a Minister of any Ministry to legally authorize the officer in prevention and suppression of the crimes in promulgation of laws to empower the official in prevention and suppression of the crimes. In addition, the use of modern technology in all phases of procedures in every department concerned will make the operation more effective immediately. The public participation should be concentrated through the parts of people, society, organization volunteer and community by reporting any crimes for investigation of perpetration in the area and spreading information of the crimes through media. By the media distribution, the personnel should be developed for the method of prevention and suppression of fuel perpetration could be of affective much more in the future.
