

Abstract

The study on "Developing Practical ways in Management of Interdisciplinary following the Child Protection Act 2546 B.E." aim on studying attitude and nature of interdisciplinary character and level of problems and obstacles effect to officers while practice with interdisciplinary under Child Protection Act 2546 B.E. Study base on learning by survey sampling groups of trained and evaluated officers whom appointed by Minister of Social Development and Human Security Department, including those who work in 75 Social Development and Human Security Provincial Offices and 23 Provincial Children and Family Home, Total amount of 243 persons. The researcher use questionnaires to those sampling groups for collection data. Referent statistics use to analyze in this research are frequency, percentage, mean, standard deviation, t-test and F-test. The research finding could be summarized as follow-

Mostly female sampling groups, age 31-40 years, bachelor, social worker, for child operation plus interdisciplinary experienced between 1-5 years. The research find out that there is co-operation with interdisciplinary, especially coordinate in interdisciplinary for child protection and informal coordination at high level. Operation of work with interdisciplinary team show the sampling groups have participation to assign the method of child Protection at high level, except child protection monitoring at middle level. By same field problems and obstacles of management and policy were at high level except the operation was at middle level. Comparison between the varieties show the different attitude for each of experienced interdisciplinary sampling groups. And period of child-work operation including experience with interdisciplinary co-operation of different work have level of problems and obstacles in policy, management and operation with difference to be statistic significant at 0.05.

The recommendation ways of developing interdisciplinary co-operation should be consist of Supporting policy to this coordination way of work monitoring and evaluate their works, Organization for co-operating in each province, Enhance knowledge and skill to executives and staff, Integration of each rolls to work with interdisciplinary co-operation concern with relevant legitimation, Sufficient budget, There must be creation of motivations and security for officers, Providing of specified knowledge of interdisciplinary to those who work in fields to push to interdisciplinary consult team and net-work that will have participation in child protection.
