

LIST OF TABLES

TABEL	PAGE
1	Selected studies which are related to the solving problem analytical process 39
2	Classification schema for type of groups 49
3	Task variables and group composition 51
4	The number of samples in phase 1, the purposive sampling techniques by divided the groups of school, four group schools 59
5	Frequency and percentage distribution of subjects 72
6	Frequency and percentage distribution of results of stress levels of elementary teachers in private schools 74
7	Frequency and percentage distribution of each factor affecting stress levels of elementary teachers in private schools 77
8	Percent severity of stress by demographic characteristics 78
9	Frequency and percentage distribution of results of stress levels of school administrators in private schools 80
10	Frequency and percentage distribution of each factor of stress levels of school administrators in private schools 83
11	Frequency and percentage distribution of subjects 85
12	Frequency and percentage distribution of results of stress levels of elementary teachers in private schools 87
13	Frequency and percentage distribution of each factor affecting stress levels of elementary teachers in private schools 89
14	Percent severity of stress by demographic characteristics 90
15	Frequency and percentage distribution of results of stress levels of school administrators in private schools 92

16	Frequency and percentage distribution of each factor of stress levels of school administrators in private schools	94
17	Frequency and percentage distribution of subjects by levels of stress	98
18	Results of job stress levels both pre and post model development process of each school size	99
