

LIST OF FIGURES

FIGURE	Page
1.1 Toyota Market Share in Thailand	7
2.1 Inter-firm Technology Transfer and Local Capability Formation	12
2.2 Strategic Options for MNEs with Regard to Obtaining Inputs	15
2.3 Technology Transfer Processes	17
2.4 Barriers of Technology Transfer	18
2.5 Patterns of Knowledge Sharing	23
3.1 Thai Automotive and Part Industry Development under Government Policies	34
3.2 The Decreases in Import Values of Auto Parts in Locally Assembled Cars	42
3.3 The Structure of the Thai Automotive Industry	46
4.1 Knowledge Transfer of Toyota Motor Thailand (TMT) in the Bilateral Relationship	58
4.2 Toyota Sales Volume in the Thai Market	59
4.3 The Processes Facilitating Knowledge-sharing in the TCC Network	66
4.4 Knowledge-sharing network in Quality Assurance (QA)	68
4.5 Inventory Management through Kanban	69
4.6 The Processes of Jidoka	70
4.7 Knowledge-sharing Network in Toyota Production System (TPS)	71
4.8 Knowledge-sharing Network in Quality Control Circle (QCC)	73
4.9 Knowledge-sharing Network in Quality Assurance (QA), Toyota Production System (TPS), and Quality Control Circle (QCC)	74
5.1 Parts Delivery before and after Introducing Milk Runs	83
5.2 Purposes of Technology Transfer to Lower Tier Suppliers	88
5.3 Patterns of Technology Transfer between First-tier and Lower Tier Suppliers	89
5.4 Channels of Technology Transfer between First-tier and Lower Tier Suppliers	91
5.5 The Processes of Making Mold & Die	93

FIGURE	Page
5.6 The Casting Processes	95
5.7 Inter-firm Transfers between First-tier and Lower Tier Suppliers by Types of Knowledge	97
5.8 Barriers to Technology Transfer between First-tier and Lower Tier Suppliers	99
