

2A **Comparison of functional quality of HIV-1 Gag p24-specific-CD8⁺ T cell responses between HLA-B*27⁺ NC and VC**

7

2B **Comparison of functional quality of HLA-B*27 KK10-specific-CD8⁺ T cell responses between NC and VC**

8

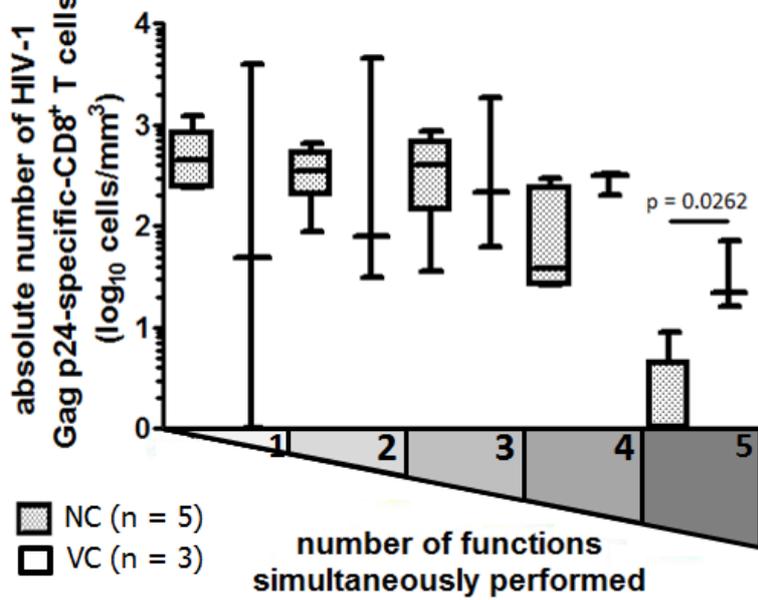

9

10

11

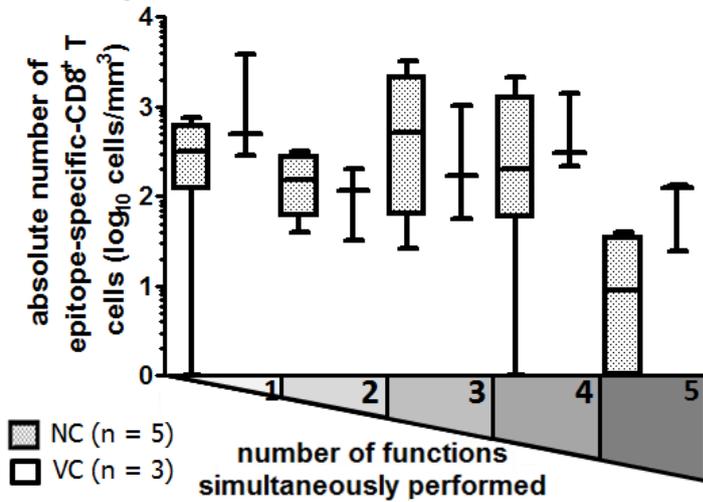

12

2C
Comparison of functional quality of HIV-1 Gag p24-specific-CD8⁺ T cell responses between HLA-B*57/58 NC and VC

13

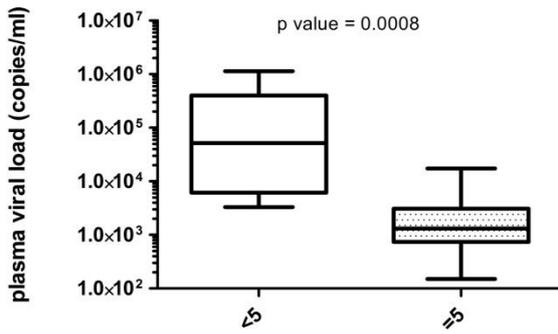

2D
Comparison of functional quality of all 6 HLA-B*57/58 restricted epitopes-specific-CD8⁺ T cell responses between HLA-B*57/58 NC and VC

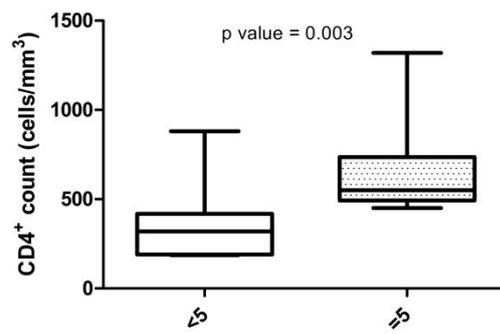

14

15

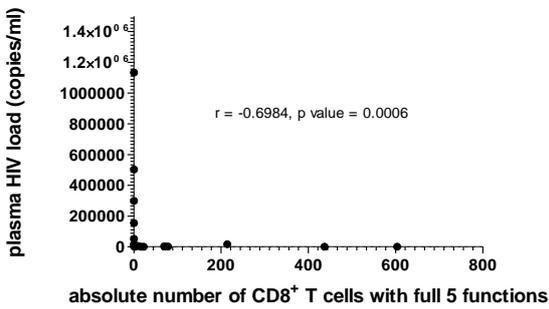

3A full 5 functions responses and pVL

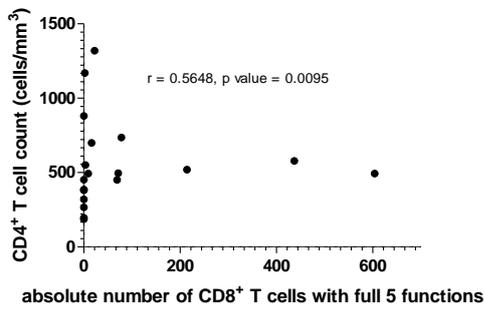

3B full 5 functions responses and CD4⁺ count

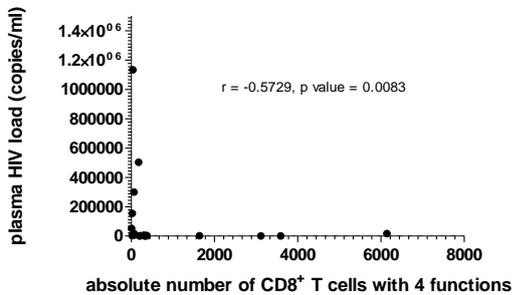

3C correlation between functional quality of p24-specific-CD8⁺ T cell responses and pVL

3D correlation between functional quality of p24-specific-CD8⁺ T cell responses and CD4⁺ count

3E correlation between functional quality of p24-specific-CD8⁺ T cell responses and pVL

3F correlation between functional quality of p24-specific-CD8⁺ T cell responses and CD4⁺ count
