

ACKNOWLEDGEMENTS

The author wishes to express his profound gratitude and to respectfully dedicate this work to his parents for their endless encouragement, love and sacrifices.

The author is most grateful to his advisor, Assoc. Prof. Dr. Banlue Srisuchinwong, for his valuable guidance, constructive criticism and helpful encouragement throughout the study, and for the completion of the thesis.

Grateful acknowledgements are made to the thesis committee, Prof. Dr. Saward Tantaratana, Prof. Dr. Wanlop Surakamponorn and Assist. Prof. Dr. Prinya Tantaswadi for their useful comments.

The author also wishes to thank Mr. M. Watchakitikorn for his useful suggestion.

Finally, the author is deeply grateful to the Thailand Research Fund (TRF) for the research grant No. PHD/0214/2543 of The Royal Golden Jubilee Program.
