

Thanyalak Swangruangpisal 2014: The Presentation of American Political Culture in Oscar Award Hollywood Films. Master of Arts (Communication Arts and Information), Major Field: Communication Arts and Information, Department of Communication Arts and Information Science. Thesis Advisor: Mr. Kajohn Fyeted, Ph.D. 151 pages.

There are two objectives of analytical the presentation of American political culture in Oscar Award Hollywood films. Firstly, to study about American political culture in Oscar Award Hollywood films. Secondly, to study about style of presentation of American political culture in Oscar Award Hollywood films. Focus on two stories are Million Dollar Baby and Argo which movies made from American's capital call "Hollywood Films", got Oscar Award for the best film and the story particularize to the political. This research is descriptive analysis. The research showed two stories had same presentation of American political culture is rights and liberty of actions, rights and liberty of expression, social of equality, chance of equality, pursuit of happiness about materialism, and pursuit of happiness about mind and body. So the issues of American political culture are the most important for Americans and they had reproduction. That showed Americans had lifestyle hold to American political culture that researcher mentioned like scheme of Americans' way of life. Then they sent American political culture to next generation and communicate to them to the people in other country via Hollywood movies. Because Americans believe the issues of American political culture is the best thing to the human. And American political culture is the good reason that American government use to intervene another country as global police by refer to rights and liberty of human be supposed to since they born. And part of presentation of American political culture researcher found that is communicated via structure of narrative in movies which setting are the best took to use for presentation of American political culture. Because they can make the audiences understand movies easy and clear.
