ACKNOWLEDGEMENTS

This research funded graduate research by the National Research Council, Annual 2012. The financial support for this research provides opportunities for researcher to study on this issue.

Nevertheless, this thesis is succeed by the intensive supervision, guidance and support from researcher's major advisor, Assoc. Prof. Rungjarat Hutacharoen and also the co-advisors, Assoc. Prof. Chumlong Arunlertaree, Assoc. Prof. Sayam Aroonsrimorakot and Asst. Prof. Saranya Sucharitakul. Researcher absolutely appreciates for kindness and valuable advices from all of them. Moreover, researcher is deeply grateful to Ms. Anong Hambananda who gives advices that lead this thesis to the proper direction.

Furthermore, researcher would like to thank every organization that provides crucial data for this thesis and Royal Chitralada Palace Project for inoculum of *Spirulina spp.* for this study. Without this inoculum, this thesis cannot be complete. Moreover, researcher also would like to thank friends including for support.

Finally, researcher would like to show gratitude to family who always encourage and attentively concern until completion of both thesis and education. Researcher devotes this achievement to my mother in the heaven. Researcher would like to apologize for any mistakes and misconceptions in this study.

Sawanya Saetae
