## ACKNOWLEDGEMENTS

This dissertation was supported by the Office of the National Research Council of Thailand (NRCT) in 2011 which I would like to gratefully thank in this occasion.

This dissertation has been done in favor of Professor Dr. Aree Wiboonpongse, an advisor and chairperson, for knowledge, counseling, as well as correction until this dissertation completed. Thus, I would like to gratefully and sincerely thank her very much.

I am sincerely and heartily grateful to my advisory committee, Professor Dr. Songsak Sriboonchitta, for the support and guidance he showed me throughout my dissertation writing. I am sure it would have not been possible without his help, assistance and guidance.

I am truly indebted and thankful to Associate Professor Dr. Prapan Thummachai, President of Chiangmai Rajabhat University, for his kindly acceptance to be my examining committee, as well as helpful guidance to make this dissertation more complete.

I would like to gratefully thank Assistant Professor Dr. Yaowarate Chaovanapoonphol, for her kindly accepting to be my advisory committee, as well as for her helpful guidance and editing paper for publishing in journal and suggestion for me until this dissertation completed.

I owe sincere and earnest thankfulness to Associate Professor Dr. Komsan Suriya, for his kind acceptance to be my advisory committee as well as for his instruction on CGE Model subject, and his suggesting me to perform simulations

using KS-CGE model Type III in Matlab which enabled me to use strong quantitative basis for this dissertation.

In addition, I would like to thank community enterprises and people in Tambon Makhuea Chae for giving the data of this dissertation; Mr.Kasem Kunasri and Mr. Veerayut Kaewmuangma for assistance in the analysis of the data and Mrs.Jutamas Onprapai for assistance and counseling.

Finally, I wish to express my gratitude to my beloved wife, Mrs. Sukanda Singkharat, my dear kids Pattarawan and Pattanan Singkharat for their support and encouragement. Virtues arising from the use of knowledge from this thesis, I would like to offer to my parents, namely my father Mr. Arj Singkharat and my mother Mrs. Janta Singkharat. Any errors and short-comings remain of course mine alone.
