

ACKNOWLEDGEMENTS

This research was completely finished with the excellent helps from many people. Firstly, I would like to thank my family for all their love and support. I express my deep gratitude to my advisor, Dr.Dusadee Sukawat, who kept an eye on my progressive work and always provides me with valuable guidance, considerably helpful comments and intensively prove my research. I am deeply appreciated and special thanks to my co-advisor, Dr.Angkool Wangwongchai for kind encouragement throughout the course of my graduate study. I am also grateful to the members of the examination committee, Assoc. Prof. Dr.Usa Humphries, Asst. Prof. Dr.Anirut Luadsong, Dr.Warisa Yomsatieankul from the Department of Mathematics, and Dr. Sugunyanee Yavinchan from Thai Meteorological department for their valuable suggestions, and considerably helpful comments, discussion on various aspects to my research. I would like to express my thanks to Dr.Chiranya Surawut, Dr.Wikanda Suphasanun, Dr.Sunisa Saiuparad, Dr.Sasiwimon Pornprapai, Dr.Wachiraporn Permpoonsinsup, Miss Somsiri Payakarak and Mr. Nattapong Wareeprasirt for friendly helps whenever I need. I also thank all members at Atmospheric Modeling Laboratory for their encouragements.

Finally, grateful thanks should be given to the Atmospheric Modeling Laboratory at Department of Mathematics, King Mongkut's University of Technology Thonburi and The Centre of Excellence in Mathematics for giving partial financial support during the preparation of the research.
