

ACKNOWLEDGEMENTS

My thanks and appreciations go to all the contributors to this thesis. First of all I am deeply indebted to my supervisors, Assoc. Prof. Dr. Khanok Ratanakhanokchai and Asst. Prof. Dr. Khin Lay Kyu for giving encouragement to enroll the Doctoral program. Furthermore, I would like to thank Asst. Prof. Dr. Kanokwan Poomputsa, Asst. Prof. Dr. Chakrit Tachaapaikoon, Dr. Patthra Pason and Asst. Prof. Dr. Surapong Pinitglang who give me interesting suggestions.

I gratefully acknowledge the financial support given by the National Research Council of Thailand and the Higher Education Research Promotion and National Research University Project of Thailand, Office of the Higher Education Commission.

I am also grateful to my colleagues and the members of the Enzyme Technology Laboratory under Biochemical Technology Division, King Mongkut's University of Technology Thonburi for mental and physical support.

Finally, I would like to thank my family for taking good care of me and encouraging me forever
