

ACKNOWLEDGEMENTS

First of all, I would like to express my gratitude to Asst. Prof. Dr.Tippawan Pinvanichkul as my advisor for her support and encouragement during this research. Without their support and active participation in every step of the process, this thesis may never have been completed. No words can adequately express my deep gratitude to Asst. Prof. Dr.Tippawan Pinvanichkul for all her guidance and kindness. I also obliged to Assoc. Prof. Dr.Suvit Tia for suggest me about methodology and give me very useful advice.

I would also like to thank my committee, including Dr. Papassorn Chaiwat and Dr. Phannaphatr Savetpanuvong for constructive feedback helping me to make this special research better.

Most importantly, none of this could have happened without my family who always support me all the time and also thank to my friends who accompany me and suffer hardship when I study at GMI.
