LIST OF TABLES xi
LIST OF FIGURES xii

CHAPTER

1. INTRODUCTION 1
1.1 Background of the study 1
1.2 Rationale of the study 3
1.3 Purpose of the study 6
1.4 Limitations of the study 6
1.5 Significance of the study 7
1.6 Summary 7

2. LITERATURE REVIEW 8
2.1 Corpus-based approach 8
2.1.1 Definition of corpus 8
2.1.2 Types of corpus 9
2.1.3 Corpus design 11
2.1.3.1 Size 11
2.1.3.2 Content 11
2.1.3.3 Balance 12
2.1.3.4 Representativeness 12
2.2 Genre analysis 13
2.2.1 Definition of genre, genre analysis and discourse community 13
2.2.2 Three traditions of genre analysis 15
2.2.3 ESP tradition 15
2.3 Move analysis 16

PAGE

2.3.1	Definition of move, step and move analysis	17
2.3.2	Approaches of move analysis	18
2.3.2.1	Top-down approach	19
2.3.2.2	Bottom-up approach	19
2.3.3	Move analysis models	20
2.3.3.1	Swales's move analysis models	21
2.3.3.2	Nwogu's move analysis model	26
2.3.3.3	Kanoksilapatham's move analysis models	30
2.3.3.4	Comparison of move analysis models	33
2.3.4	Contrastive move analysis studies	33
2.4	Medical research articles	35
2.4.1	The structure of medical research articles	35
2.4.2	Four sections in IMRD structure	36
2.4.3	Related medical research article studies	37
2.5	Summary	39
3.	**RESEARCH METHODOLOGY**	**40**
3.1	The corpora	40
3.1.1	Thai and international medical journal corpora	40
3.1.2	Size of corpora	41
3.1.3	Content of corpora	42
3.1.4	Balance of corpora	43
3.1.5	Representativeness of corpora	43
3.1.5.1	Selection of the journals	43
3.1.5.2	Selection of the medical research articles	45
3.1.5.3	Selection of the medical research article introductions	46
3.2	The analytical framework	46
3.2.1	Developing the analytical framework	46
3.2.2	The tentative analytical framework	48
3.2.3	List and explanation of moves and steps in this study	49
3.3	Research procedures	57

PAGE

3.4	Summary	60
4.	**DATA PRESENTATION AND INTERPRETATION**	**61**
4.1	Moves and steps of the Introduction section in English medical research articles published in Thai medical journals	61
4.1.1	Frequency of occurrence	61
4.1.1.1	Move occurrences	61
4.1.1.2	Step occurrences	62
4.1.2	Patterns of moves and steps	64
4.1.2.1	Move patterns	66
4.1.2.2	Step patterns	67
4.1.3	Move analysis model of Thai medical journal corpus	67
4.2	Moves and steps of the Introduction section in English medical research articles published in international medical journals	69
4.2.1	Frequency of occurrence	69
4.2.1.1	Move occurrences	69
4.2.1.2	Step occurrences	70
4.2.2	Patterns of moves and steps	71
4.2.2.1	Move patterns	71
4.2.2.2	Step patterns	73
4.2.3	Move analysis model of international medical journal corpus	74
4.3	Similarities and differences in the moves and steps between English medical research article introductions published in Thai and international medical journals	75
4.3.1	Move and step occurrences	75
4.3.1.1	Move occurrences	76
4.3.1.2	Step occurrences	76
4.3.2	Patterns of moves and steps	81
4.3.3	Sequence of move	82
4.3.3.1	Opening move	82
4.3.3.2	Closing move	83

PAGE

4.3.4	Move analysis model	84
4.4	Summary	86
5. DISCUSSION AND IMPLICATIONS		**88**
5.1	Summary of the findings	88
5.1.1	Move occurrence	88
5.1.2	Step occurrence	89
5.1.3	Move patterns	91
5.2	Pedagogical implications	94
5.3	Suggestions for further studies	95
5.4	Conclusion	96
REFERENCES		**97**
APPENDICES		**105**
A	Recommendations for manuscript sections	106
B	Coding protocol	109
C	List of research articles in the corpora	112
D	A sample coding form	118
E	List of step patterns of the opening *Move 1* in the corpora	121
CURRICULUM VITAE		**124**

LIST OF TABLES

TABLE		PAGE
2.1	Comparison of required steps between top-down corpus-based approach and bottom-up corpus-based approach	19
2.2	Comparison of move labels between Swales's 1990 model and Nwogu's 1997 model	27
3.1	Characteristics of the Thai medical journal corpus	41
3.2	Characteristics of the international medical journal corpus	42
3.3	Journal impact factors of journals in the Thai medical journal corpus	44
3.4	Journal impact factors of journals in the international medical journal corpus	45
3.5	Tentative analytical framework of moves and steps in this study	48
3.6	Category of moves and steps based on frequency of occurrence	60
4.1	Frequency of occurrence of moves in Thai medical journal corpus	62
4.2	Frequency of occurrence of steps in each move of Thai medical journal corpus	63
4.3	Move patterns in Thai medical journal corpus	66
4.4	Linear and cyclical patterns in Thai medical journal corpus	66
4.5	Step patterns in *Move 1* used as the opening move of Thai medical journal corpus	67
4.6	Frequency of occurrence of moves in international medical journal corpus	69
4.7	Frequency of occurrence of steps in each move of international medical journal corpus	71
4.8	Move patterns in international medical journal corpus	73
4.9	Linear and cyclical patterns in international medical journal corpus	73
4.10	Step patterns in *Move 1* used as the opening move of international medical journal corpus	74
4.11	Frequency of occurrence of moves and steps in the two corpora	77

LIST OF FIGURES

FIGURE		PAGE
2.1	Swales's 1990 CARS model and Swales's 2004 revised CARS model	22
2.2	Coding examples of *Steps 1-3* in *Move 1* using Swales's 1990 CARS model	23
2.3	Nwogu's 1997 model for medical research articles	27
2.4	Comparison of move models of research article introductions	28
2.5	Example of introduction using number citations at the end of sentences	37
3.1	Comparison of the previous analytical frameworks and the tentative version	47
3.2	Some move patterns from move analysis	50
3.3	Examples of steps coded in *Move 1*	51
4.1	Identified moves and steps in Thai medical journal corpus	65
4.2	Move analysis model of the Introduction section in Thai medical journal corpus	68
4.3	Identified moves and steps in international medical journal corpus	72
4.4	Move analysis model of the Introduction section in international medical journal corpus	75
4.5	Comparison of frequency of occurrence of three moves in Thai and international medical journal corpora	76
4.6	Comparison of frequency of occurrence of 3 steps in *Move 1 Presenting background information* in the two corpora	78
4.7	Comparison of frequency of occurrence of 4 steps in *Move 2 Preparing for the present study* in the two corpora	78
4.8	Comparison of frequency of occurrence of 6 steps in *Move 3 Introducing the present study* in the two corpora	80
4.9	Comparison of proportion of cyclical and linear move patterns in the Introduction section in the two corpora	81
4.10	Comparison of proportion of cyclical and linear step patterns in *Move 1* used as the opening move in the two corpora	82
4.11	Comparison of the opening moves in the two corpora	83
4.12	Comparison of the closing moves in the two corpora	84

LIST OF FIGURES (Cont.)

FIGURE		PAGE
4.13	Comparison of the move analysis models from the two corpora	85
5.1	Diagram of cyclical patterns in the Thai journals compared to the international journals	93
