

**The Present Thesis is Greatly Dedicated to My Parents and
The Entire Teaching Staff**

ACKNOWLEDGEMENTS

Firstly, I would like to express my deepest gratitude thank to Asst. Prof. Dr. Rakpong Petkam, my advisor, for his suggestions, encouragement, support, guidance and criticism throughout the course of my study. Thanks to him, I had opportunities to gain my knowledge and experience in Khon Kaen University. I would like to express my special thank again for his kindness and spending his precious time to correct my academic paper and thesis until they are completed.

I would like to express my special thanks to my co-advisors, Prof. Dr. Dominique P. Bureau and Prof. Dr. Frederick W.H. Beamish for their valuable supervisions, suggestions, encouragement, support, guidance and criticism throughout the course of my study. Once again, thanks to Prof. Dr. Dominique P. Bureau for his kindness in providing an opportunity to work and be trained in his laboratory as well as participate in the conference of Canada Aquaculture 2013.

I would like to express appreciation to Dr. Pedro Encarnaç o, the Aquaculture Technical Specialist at BIOMIN Singapore Pte. Ltd. for consulting about the experimental design and also Mr. Buncha Srikhum, the lab technician at Aquaculture Centre for Applied Nutrition, BIOMIN Thailand Co Ltd. for his kindness guidance and his help throughout the experimental conduction. Thanks to Jamie Hooft, Patricio Saez and Guillaume Pfeuti, Ph.D. and MSc. students in Fish Nutrition Research Laboratory at University of Guelph their advices, statistical helps and encouragement during my training in University of Guelph and also to Prof. Dr. John Lumsden for his guidance regarding the histological assessment of tissues. Thanks are also expressed to official staffs and students in Department of Fisheries, Faculty of Agriculture at Khon Kaen University, Thailand.

The funding and facilities for this study were provided by National Research Council of Thailand, Biomin Singapore Pte., Ltd., Fish Nutrition Research Laboratory, (University of Guelph, Canada), and Graduate School (Khon Kaen University, Thailand). Finally, my never-ending thanks and love to my family. My accomplishment of this goal would not have been possible without financial support, love, as well as spirit from them.

Siriporn Tola
