

LIST OF TABLES

Table	Page
1 Chemical properties of vegetable oil	4
2 The biodiesel specification between EN14214 and ASTM D 6751	5
3 The fatty acid composition of Jatropha seed oil	7
4 The comparison of each technology to produce biodiesel	10
5 The energy of activation and reaction rate constant at 50 °C	11
6 The streams table of column	42
7 The The gain and integral time of each controller in case of increase and decrease oil feed e flow by Ziegler Nichols technique	55

Appendix Table

C1 The stream table of 1 reaction zone	79
C2 The stream table of 2 reaction zone	80
C3 The stream table of 3 reaction zone	81
C4 The stream table of 4 reaction zone	82
C5 The stream table of 5 reaction zone	83
D1 The stream table of zero rectifying	85
D2 The stream table of 1 rectifying	86
D3 The stream table of 2 rectifying	87
D4 The stream table of 3 rectifying	88
D5 The stream table of 4 rectifying	89
E1 The stream table of zero stripping	91
E2 The stream table of 1 stripping	92
E3 The stream table of 2 stripping	93
E4 The stream table of 3 stripping	94
E5 The stream table of 4 stripping	95
F1 The stream table of 0.1 reflux	97
F2 The stream table of 1 reflux	98
F3 The stream table of 5 reflux	99
F4 The stream table of 10 reflux	100

LIST OF TABLES (Cont'd)

Appendix Table	Page
F5 The stream table of 20 reflux	101
F6 The stream table of 30 reflux	102
F7 The stream table of 40 reflux	103
F8 The stream table of 70 reflux	104
G1 The stream table of 0.5 atm	106
G2 The stream table of 1 atm	107
G3 The stream table of 2 atm	108
G4 The stream table of 3 atm	109
G5 The stream table of 4 atm	110
