

ACKNOWLEDGEMENTS

This thesis was successful because of direct and indirect assistance from many people. First, I would like to express gratitude to my advisor, Assoc. Prof. Dr. Anawat Sungpet, for all excellent suggestions and encouragement throughout this thesis. I also would like to express my sincere thanks to Assoc. Prof. Dr. Suwassa Pongamphai and Assist. Prof. Dr. Jindarat Pimsamarn for valuable comments and suggestions that broaden my knowledge.

I would like to express my thanks to all staffs at Chemical Engineering Laboratory at King Mongkut's University of Technology Thonburi who always support and take care of me throughout this thesis. Finally, I am grateful to my friends and my family for their supports.
