

ACKNOWLEDGEMENTS

First of all, I would like to take this opportunity to express my deep gratefulness to my dissertation advisor, Assoc. Prof. Pimporn Leelapornpisid of the Department of Pharmaceutical Science, Faculty of Pharmacy, Chiang Mai University for her invaluable guidance, tremendous patience, inspiration and caring throughout this study. I am deeply indebted to her and I could not have completed this thesis without her support.

Next, I would like to express my profound gratitude to my co-advisor, Assoc. Prof. Dr. Yuwadee Peerapornpisal of the Microbiology Section, Department of Biology, Faculty of Science, Chiang Mai University. She provided valuable knowledge, encouragement, attention, advices and inspiration that have guided me throughout my undergraduate, Master and Ph. D Programs. I also thank her very much for her love and care.

I would like to express my profound appreciation and sincere gratitude to my co-advisor, Assoc. Prof. Dr. Busaban Sirithunyalug of the Department of Pharmaceutical Science, Faculty of Pharmacy, Chiang Mai University for her kindness, guidance, that really helps me finish up this thesis. Her generosity and encouragement have immensely contributed to the completion of this thesis and I would like to express my deep gratefulness and sincere gratitude to Dr. Supat Jiranusornkul of the Department of Pharmaceutical Science, Faculty of Pharmacy, Chiang Mai University. He provided valuable knowledge, encouragement and resources that have guided me throughout my research.

Dr. Doungporn Amornlertpisan, examining committee, is also gratefully acknowledged for her suggestions and guidance as well as her critical reading and comments.

Special thanks go to Prof. Dr. Helmut Viernstein and Prof. Dr. Frank M. Unger at Department of Pharmaceutical Technology and Biopharmaceutics, University of Vienna, Austria. My sincere thanks also are due to Prof. Dr. Werner Praznik and Dr. Renate Löppert of Department of Chemistry, Division of Organic Chemistry, BOKU, University of Natural Resources and Applied Life Science,

Vienna for their help, suggestions and teaching on laboratory technique during the research at Vienna.

Many thanks also go to all members in the Cosmetic Laboratory for their helpfulness, support and, most importantly, for making the laboratory an enjoyable place.

I would also like to take this opportunity to thank the Austrian Agency for International Cooperation in Education and Research for generosity financial support (ÖAD). Special thanks for the financial support from the Commission on Higher Education, Thailand for a scholarship under the program of Strategic Scholarships for Frontier Research Network for the Ph.D. Program Thai Doctoral degree.

Special thanks go to Dr. Jeeraporn Pekkoh, Dr. Sorrachat Thiamdao, Ms. Thanitsara Inthasotti, Dr. Pawalee Srisuksomwong, Dr. Chayakorn Pumas, Dr. Pamon Pumas and Mrs. Nichakan Phoowiang for their love, help, suggestion and encouragement.

Unforgettably, I am deeply grateful to all members of my family including my father; Mr. Jomlong Mungmai and my mother; Mrs. Buakaew Mungmai. Without their love, remarkable support, encouragement and faith in me, I would have never succeeded. Thanks are also to my sisters; Ms. Nongnaphat Mungmai for her love and support.

Lapatrada Mungmai
