

ACKNOWLEDGEMENT

Firstly, I would like to express my profoundly gratitude and sincere appreciation to my advisor Dr. Supaporn Puntheeranurak, for her guidance support, supervision, encouragement, inspiration constant, counseling and suggestion in my thesis writing throughout my study.

I would like to thank my co-advisor Dr.Sakara Tunsophon, for her counseling and suggestion in my laboratory and thesis writing throughout my study.

I would like to express their appreciation to Associate Professor Dr. Kornkanok Ingkaninan who kindly provided *K. parviflora* extract and Professor Gavin P. Reynolds for his helpful suggestion in my thesis writing.

I would like to thank a research grant from Naresuan University, Thailand (R2555C086) for financial support.

Furthermore, I'm sincerely grateful to my friends for their friendly, helpful and technical assistance and all the animals who sacrificed their lives to this research.

Finally, I would especially like to greatly thankful and extremely appreciate to my family for their love, cheerful, encouragement, understanding and financial support throughout my study.
