Abstract.....	3
Executive Summary.....	5
1 Introduction	9
1.1 Literature review.....	9
1.2 Natural products of interest	17
2 Objectives.....	18
3 Experimental Design and Methodology	19
4 Results and Discussion	24
4.1 Attempted approaches towards synthesis of a cyclic depsipeptide	24
4.1.1 Phase I: A model study – synthesis of a cyclic peptide	24
4.1.2 Phase II: Attempted development of a method to synthesise a cyclic depsipeptide ...	28
4.2 A new direction of the project: synthesis of a cyclic peptide natural product.....	34
4.2.1 Methodology development and optimisation studies.....	35
4.2.2 Synthesis of integerrimide A natural product	40
5 Conclusions and Future Work	46
6 Experimental	47
6.1 General Experimental Details	47
6.2 Experimental Procedures.....	48
6.3 HPLC Chromatograms.....	54
7 References.....	60
8 Appendix	64
