ACKNOWLEDGEMENTS

I am very thankful to my major advisor, Asst. Prof. Jaruwan Wongthanate, who always gives encouragement, guidance, kindness and support completely develop throughout this thesis. I would like to show my gratitude to Assoc. Prof. Dr. Benjaphorn Prapagdee, Asst. Prof. Dr. Achara Ussawarujikulchai who are my co-advisor and Dr. Janjit Iamchaturapatr who is chair for their helpful suggestion. I sincerely thank all academic staffs in Appropriate Technology for Resources and Environmental Development program (AT) who have provided me to understand the environmental subject and all supporting staff in Faculty of Environment and Resource Studies for accommodating me. In my daily work, I have been blessed with a friendly and cheerful group of fellow students. This thesis is partially supported by Graduate Studies of Mahidol University Alumni Association and is supported scholar by National Research Council of Thailand.

Lastly, I thank my parents for supporting me throughout all my studies at University. I offer my regards and blessings to all of those who supported me in any respect during the completion of the thesis.
