

ACKNOWLEDGEMENTS

I would like to express my sincere gratitude and deep appreciation to my major advisor, Associate Professor Kaew Kangsadalampai for his valuable advice, guidance and encouragement throughout my graduate study.

I am very grateful to Assistant Professor Sitima Jittinandana, my co-advisor, for her kindness, comment and valuable suggestions. I am also really thankful to the thesis committee, Associate Professor Sasichai Kangsadalampai, for his suggestion and correction of thesis.

I would like to extend my appreciation to Miss Monrudee Sukprasansap, for her helpful technique training and encouragement as well as Mr. Dorkngam Sudjom for his helpful, guidance and kindness.

I wish to dedicate the greatest acknowledgment to all teachers who have taught me and thank all staffs of Institute of Nutrition, Mahidol University for their co-operation.

I would like to special thank my friends, Mr. Bhuminan Suvarnnabhumi, Miss Jitteenan Jitwiriya, Miss Bantita Permpool and Miss Atchari Pin-am for their helps in various ways.

I gratefully acknowledge the financial support given by the National Research Council of Thailand under fiscal year 2012.

Finally, my special gratitude is expressed to my beloved family for their love, care, support and much encouragement throughout the period of my graduate study.

Sinee Kokcharoenpong
