

ACKNOWLEDGEMENT

I would like first of all to thank Assistant Professor Dr.Theerachai Bongkarnwho has given me the great opportunity, good support, encouragement and valuable suggestions. I also would like to thank my committee member, Associate Professor Dr.Orawan Ritthidech, Assistant Professor Dr.Thiranee Khumlumlert, Assistant Professor Dr.Nipaphat Charoenthai, Assistant Professor Kachain Dangudom, Dr.Sarawut Thountom and Assistant Professor Dr.Naratip Vittayakorn for their helpful advice, comments and suggestions.

It was a great chance in my life to work with Professor David P. Cann at Oregon state university (OSU). I would like to extent my deepest appreciation and thanks to him for his guidance, teaching, encouragement, patience and valuable advice. I would also thank my friends at OSU especially Nitish Kumar and Sasiporn Prasertpalichat for help when I was in USA which will always be remembered with deep gratitude.

My profound thanks to Department of Physics, Faculty of Science, Naresuan University for being warmest places to study since the researcher studied a Bachelor's degree, Masters' degree and Doctoral degree here. I feel love and commitmentwith here.I would like to thank Science Lab Center and MissThanita Sutthatang for XRD analysis, Mr. Seangphet Boonpang from Electron Microscopy for SEM analysis and Miss Prakaithip Kitikhunfor TEM analysis for their assistance in the part of instrument.

I would like to acknowledge the Thailand Research Fund through the Royal Golden Jubilee Ph.D. Program (Grant no. PHD/0213/2552) to Miss Rattiphorn Sumang and Assistant Professor Dr.Theerachai Bongkarnfor all financial support during this study.

Finally, I would like to thank my family for their love and their understanding. They have been constantly providing me with encouragement, enjoyment during my life and enabled me to complete this thesis.

Rattiphorn Sumamg
