Author	Miss Ubonwanna Kasetiam
Degree	Master of Science (Information Technology and Management)
Independent Study Advisor	Lecturer Dr. Samerkae Somhom

ABSTRACT

The purposes of this independent study “Development of an Information Technology System for the Master of Accounting Curriculum Management at Chiang Mai University” are 1) to develop an Information Technology System for the Master of Accounting Curriculum Management at Chiang Mai University 2) to develop Database for Master of Accounting.

Development of an Information Technology System for the Master of Accounting Curriculum Management at Chiang Mai University was developed on Windows Millenium operating system. The system used Professional Home Page as development tool and created relational database by MySQL program.

The result of this study was evaluated from actual usage by staff members, teachers and students in Master of Accounting Curriculum and 66 questionnaires assessment. The result showed that the average of efficiency level in actual usage of system was good. We concluded that the system was accurate, productive and convenient. The developed program was suitable for being used in Development of an Information Technology System for the Master of Accounting Curriculum Management at Chiang Mai University and supported the objective of this study.
