

ACKNOWLEDGEMENT

This study could not be completed without assistance from some magnificent people. I hereby would like this opportunity to acknowledge my deepest gratitude to all of them.

First, I am indebted to my advisor, Asst. Prof. Dr. Puree Sirasootorn. Her invaluable advice, comments and encouragement influenced me to be able to complete this thesis. She has consistently offered her availability to meet and discuss details. In addition, I am also deeply grateful to Dr. Nessara Sukpanich, Assoc. Prof. Dr. Supawat Rungsuriyawiboon and Assoc. Prof. Dr. Wirat Krasachat, King Mongkut's Institute of Technology Ladkrabang, members of my thesis committee, for their constructive instructions, comment and useful advice that have substantially improved my thesis.

I wish to express my thankfulness to staffs the computer lab, Puey library and officers of the graduate program for their great supports throughout my education.

I could not have passed this tough time in study without help from my friends and seniors, thank you everyone for providing good and warm environment throughout the period of the study at the graduate program. And I am also grateful to Beau (Boby), P'Num, P'B, Wanh (MM, MA) and Tae (MA) for their language editing.

I would like to express my deepest appreciation to the most important people in my life, my family: Dad, Mom and my brother for their love, care, encouragement and financial assistance. Moreover, I would like to thank them again for believing me to do anything in my life.

However, there are other people who have contributed to this thesis whom I do not mention here. I would like to say “thank you” to all of you.

Finally, any deficiencies, ambiguities and shortcomings in this thesis are solely my own responsibility. All comments and suggestions are welcomed.
