

Kandara Khemsida 2014: The Readiness of PTT Polymer Logistics Company Limited Employee toward the Upcoming of ASEAN Economics Community (AEC). Master of Arts (Political Science), Major Field: Political Science, Department of Political Science and Public Administration. Thesis Advisor: Associate Professor Juthatip Klaitabtim, M.A. 145 pages.

The objective of this research were to investigate the readiness level of PTT Polymer Logistics company (PTTPL)'s officers toward the upcoming of ASEAN Economics Community and to compare the readiness of PTTPL's officers according to personal factor, AEC information and knowledge of free flow of logistics. Population consists of 150 employees of PTTPL's. Data were collecting by using questionnaire and in-depth interview. The statistic too using for data analysis were Percentage, Mean, Standard Deviation, t-test, One-way ANOVA, Scheffe with statistical significance level at .05 and Content Analysis.

The research revealed that the readiness of PTT Polymer Logistics Company employees toward the upcoming of ASEAN Economic community was at moderate level. The PTTPL employees has different personal factors caused no difference in the readiness toward the upcoming of AEC. While the PTTPL with different AEC information and knowledge of free flow of logistics caused no difference in the readiness toward the upcoming of AEC. According to in-depth interview and content analysis.
