

ACKNOWLEDGEMENTS

I hereby express my sincere gratitude to my academic supervisor, Assoc. Prof. Dr. Kasemsan Manomaiphiboon for his guidance, suggestions and constructive remarks during my study at the Joint Graduate School of Energy and Environment (JGSEE). I would like to sincerely thank the members of my thesis committee, Prof. Dr. R. H. B. Exell (JGSEE), Assoc. Prof. Dr. Chumnong Sorapipatana (JGSEE), and Dr. Chawin Chantharasenawong (KMUTT) for their useful comments and suggestions. I also extend my thanks to Dr. Dusadee Sukawat as my external examiner.

I appreciate the financial support from the Thailand International Cooperation Agency (TICA), the King Mongkut's University of Technology (KMUTT), and the JGSEE for making it possible for me to study in Thailand at the JGSEE. My gratitude also extends to the Pollution Control Department of Thailand (PCD) for the facilitation and provision of observed meteorological data. I would also like to thank Dr. Ariyawat Prabamroong, Carina Paton, Kritanai Torsri and Mega Octaviani for their technical support and the people at the JGSEE Computational Laboratory (Bang Khun Tien Campus) for their friendship.

My sincere thanks also go to my parents, James Kaigwara Ng'ang'a and Edith Njoki, and my siblings for their moral support during my study in Thailand. I would also like to thank the staff at the Ministry of Energy (currently Ministry of Energy and Petroleum), Kenya for facilitating my study in Thailand.
