VITA

William M. Kaigwara was born in 1980 in Nairobi, Kenya. He studied at the Jomo Kenyatta University of Agriculture and Technology, Nairobi, from 2000 to 2005 and graduated with a Bachelor of Science with Honors in Mechanical Engineering. His senior project dealt with a thermal process in a plasticizing machine. He was employed at the Ministry of Energy, Kenya as a mechanical engineer in the Renewable Energy Department in 2006 where he worked until 2011. Then, he travelled to Thailand to pursue graduate studies at the Joint Graduate School of Energy and Environment at King Mongkut's University of Technology Thonburi.
