Natthasiri Doknaree 2009: Development of Learning Object
on Indochina for Mathayomsuksa 1 Students. Master of Education
(Educational Technology), Major Field: Educational Technology,
Department of Educational Technology. Thesis Advisor:
Associate Professor Jongkol Kanperm, M.S.Tech.Ed. 106 pages.

The purposes of the research were 1) to develop Learning Object on
Indochina for Mathayomsuksa 1 students with quality level as "good" according
to experts evaluation, 2) to compare the students pre-test scores and post-test
scores, and 3) to study the students satisfaction on the developed Learning Object.

The subject was 30 Mathayomsuksa 1 students at Khamsakaesaeng School
Nakhon Ratchasima Province. The research tools utilized in this study
were Learning Object, pre-test, post-test, and questionnaires. The data
were analyzed using frequency, percentage, and t-test.

The research results were 1) the developed Learning Object was evaluated
by content expert as "very good" level, and technical expert as "good" level
of quality, 2) the students post-test scores after studying through Learning Object
were statistically significant higher than the students pre-test scores at .05 level,
and 3) the students satisfaction on developed Learning Object was at
very good level.
