

## ACKNOWLEDGEMENTS

I would like to express my gratefully thanks to many people who encouraged and helped me throughout the course of this study: Dr. Dusadee Sukawat, my thesis advisor for his great elaborate guidance, friendly encouragement and tolerance with problems solving during the course of study. I am also grateful to the members of the examination committee, Dr. Angkool Wangwongchai and Dr. Warisa Yomsatieankul from the Department of Mathematics, and Dr. Sugunyanee Yavinchan from the Thai Meteorological Department for their valuable comments and suggestions.

Also, I am gratefully indebted to all the lecturers who have taught me. Sincere thanks are extended to Miss Duenpen Kirdnark and Mrs. Peangpit Rodpan for their kind assistance and encouragement. I would like to thank my good friends for friendly helps whenever I need. Thank also to the Department of Mathematics, King Mongkut's University of Technology Thonburi, Centre of Excellence in Mathematics, for giving partial financial support during the preparation of the thesis. Finally, I express my deep gratitude to my family who has always been my inspiration and my guiding light. They always support me with all their love.
