### Abstract

The purposes of this research were to study Honesty about Scientific Attitude and Science Process Skills and the relationship between Honesty about Scientific Attitude and Science Process Skills of Mathayom Suksa 3 Students in B.E.2535 from Prapathom Wittayalai School and Rachineeburana School in Nakorn Prathom Province. Sample size was 480 students. Research instruments were the Honesty about Scientific Attitude Test and Science Process Skills Test.

Research findings were as follows :

1. Students had a high level of Honesty about Scientific Attitude at the confident level of 99%.
2. Students had a middle level of Science Process Skills at the confident level of 99%.
3. Honesty about Scientific Attitude had moderate positive correlations with Science Process Skills ( $r = 0.4184$ ) at the significant level of .001.
