

APPENDIX B
**The Comparison of Spatial Pattern between the Original Results and
Re-gridding Results on 10th September 2011 of Exp01, Exp02 and
Exp03**

The comparison of spatial pattern between the original results and re-gridding results on 10th September 2011 of Exp01

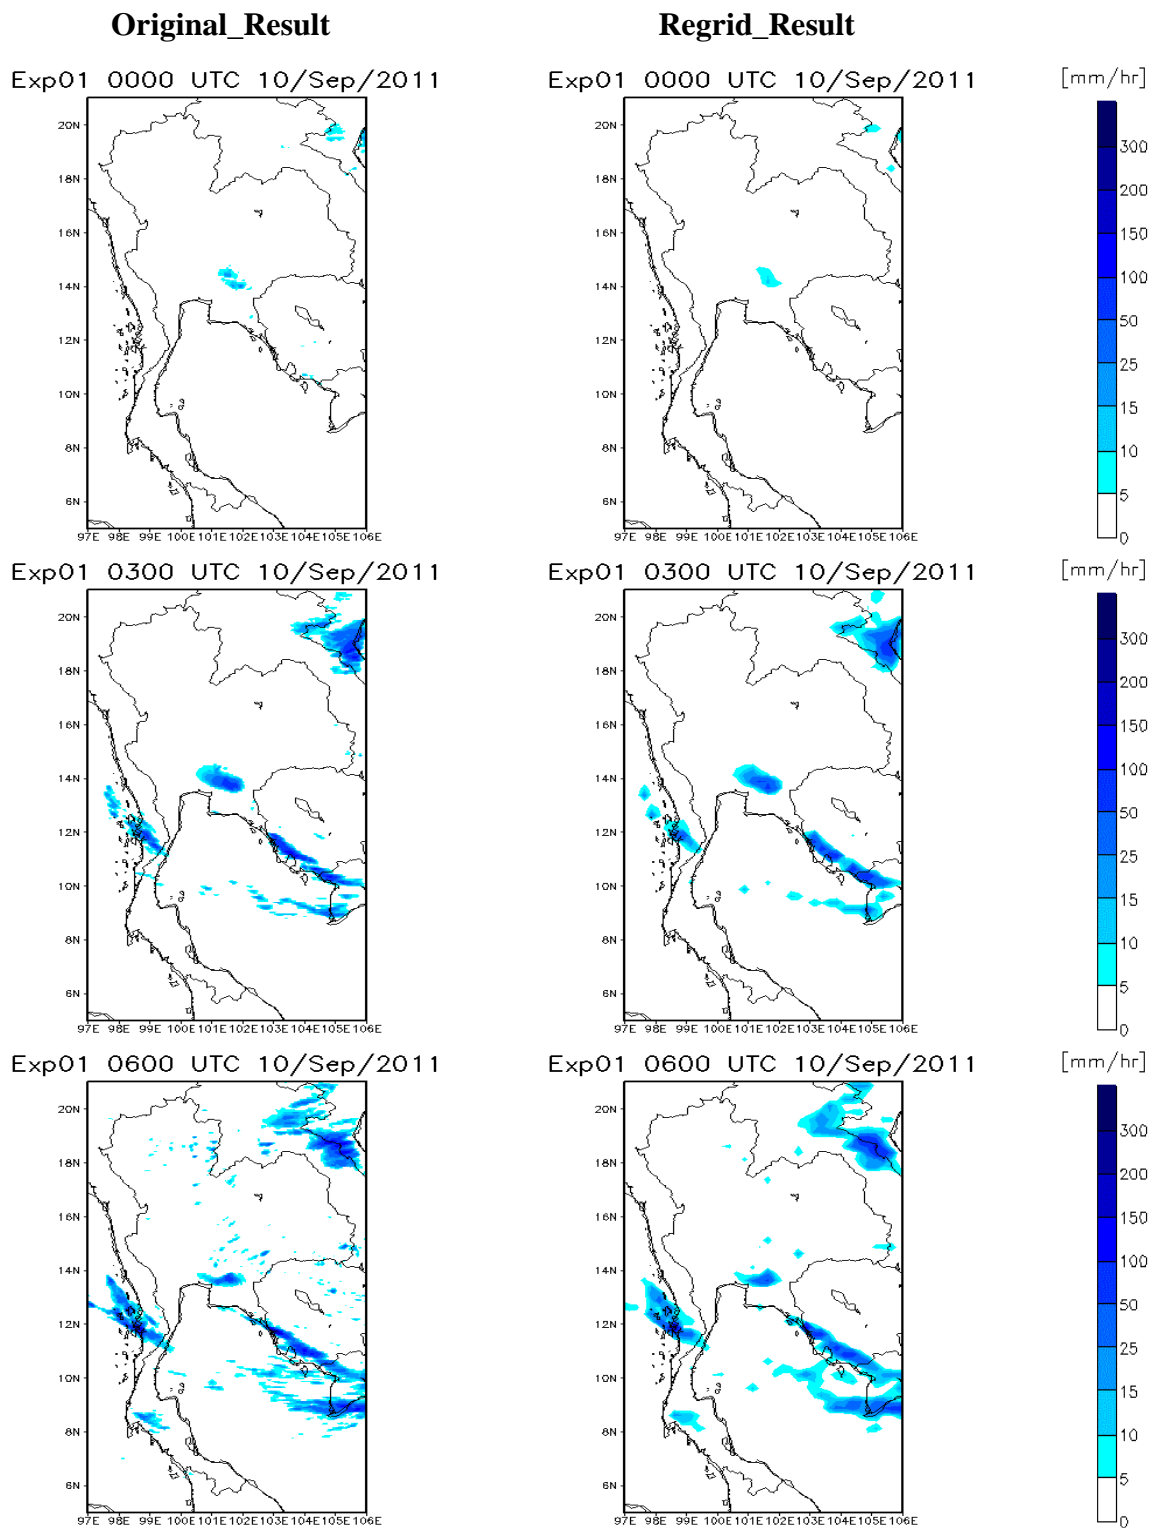

Figure B01 The comparison of rainfall distribution pattern between the original results and re-gridding results during 0000 UTC to 0600 UTC 10 September 2011 of Exp01

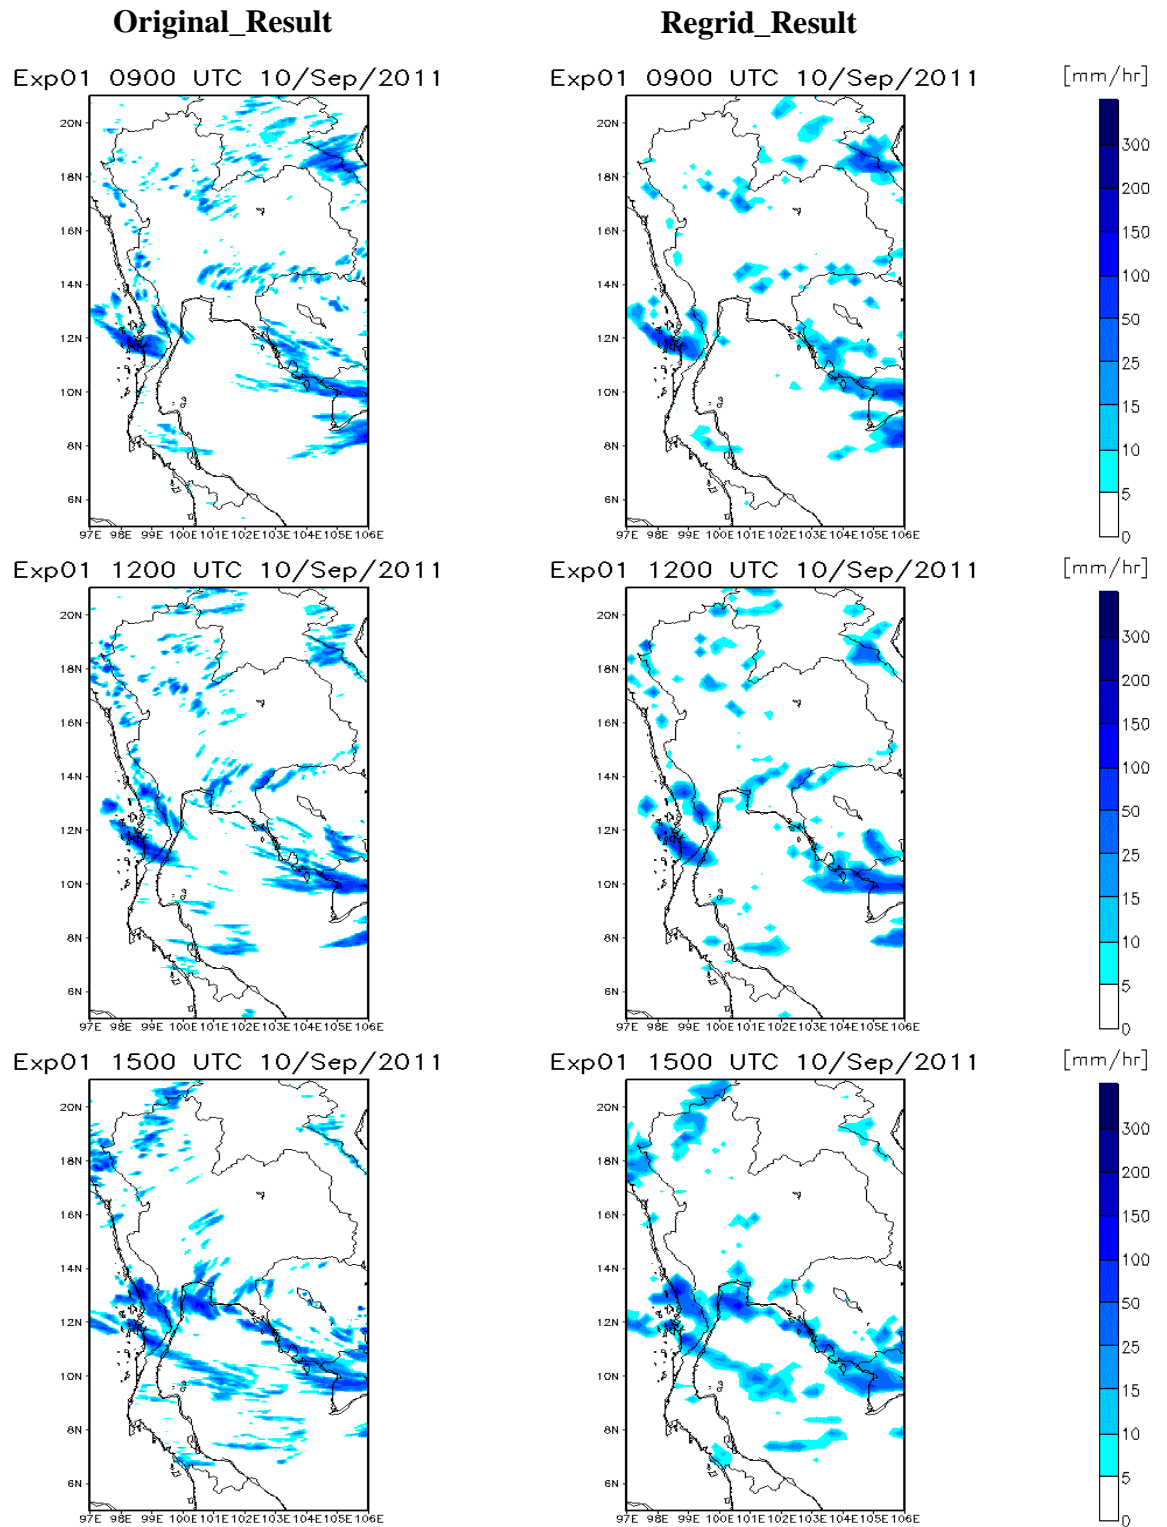

Figure B02 The comparison of rainfall distribution pattern between the original results and re-gridding results during 0900 UTC to 1500 UTC 10 September 2011 of Exp01

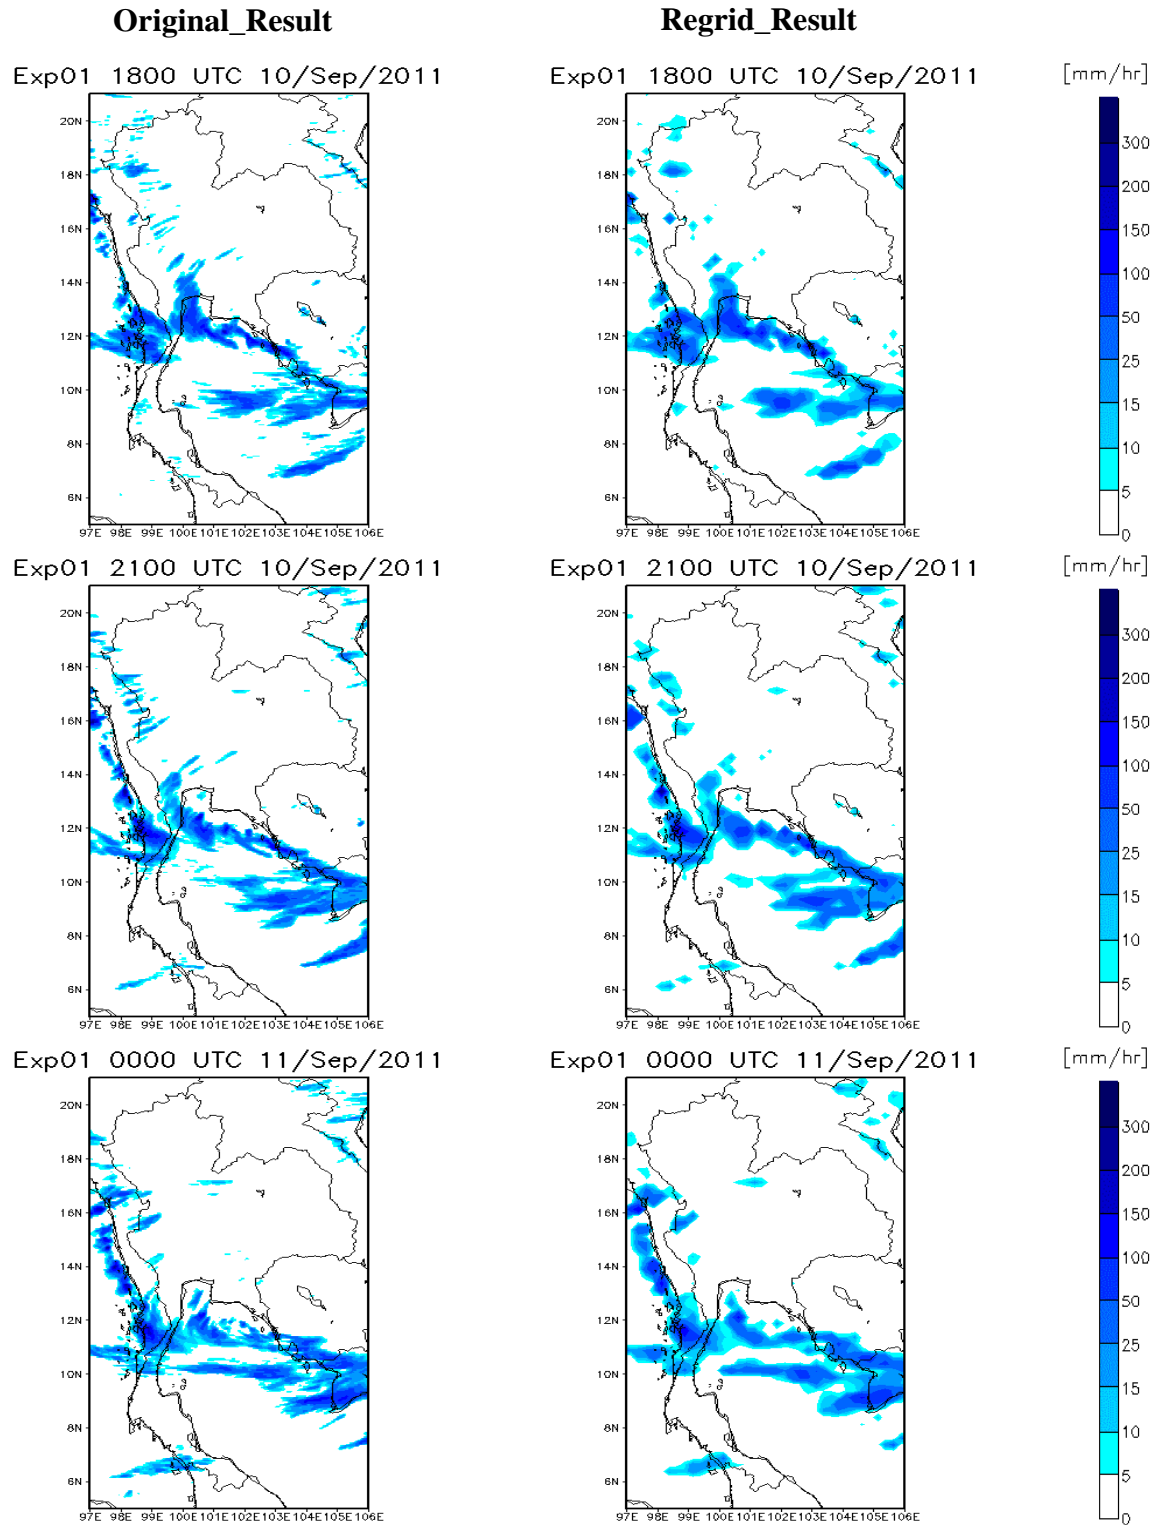

Figure B03. The comparison of rainfall distribution pattern between the original results and re-gridding results during 1800 UTC 10 September 2011 to 0000 UTC 11 September 2011 of Exp01

The comparison of spatial pattern between the original results and re-gridding results on 10th September 2011 of Exp02

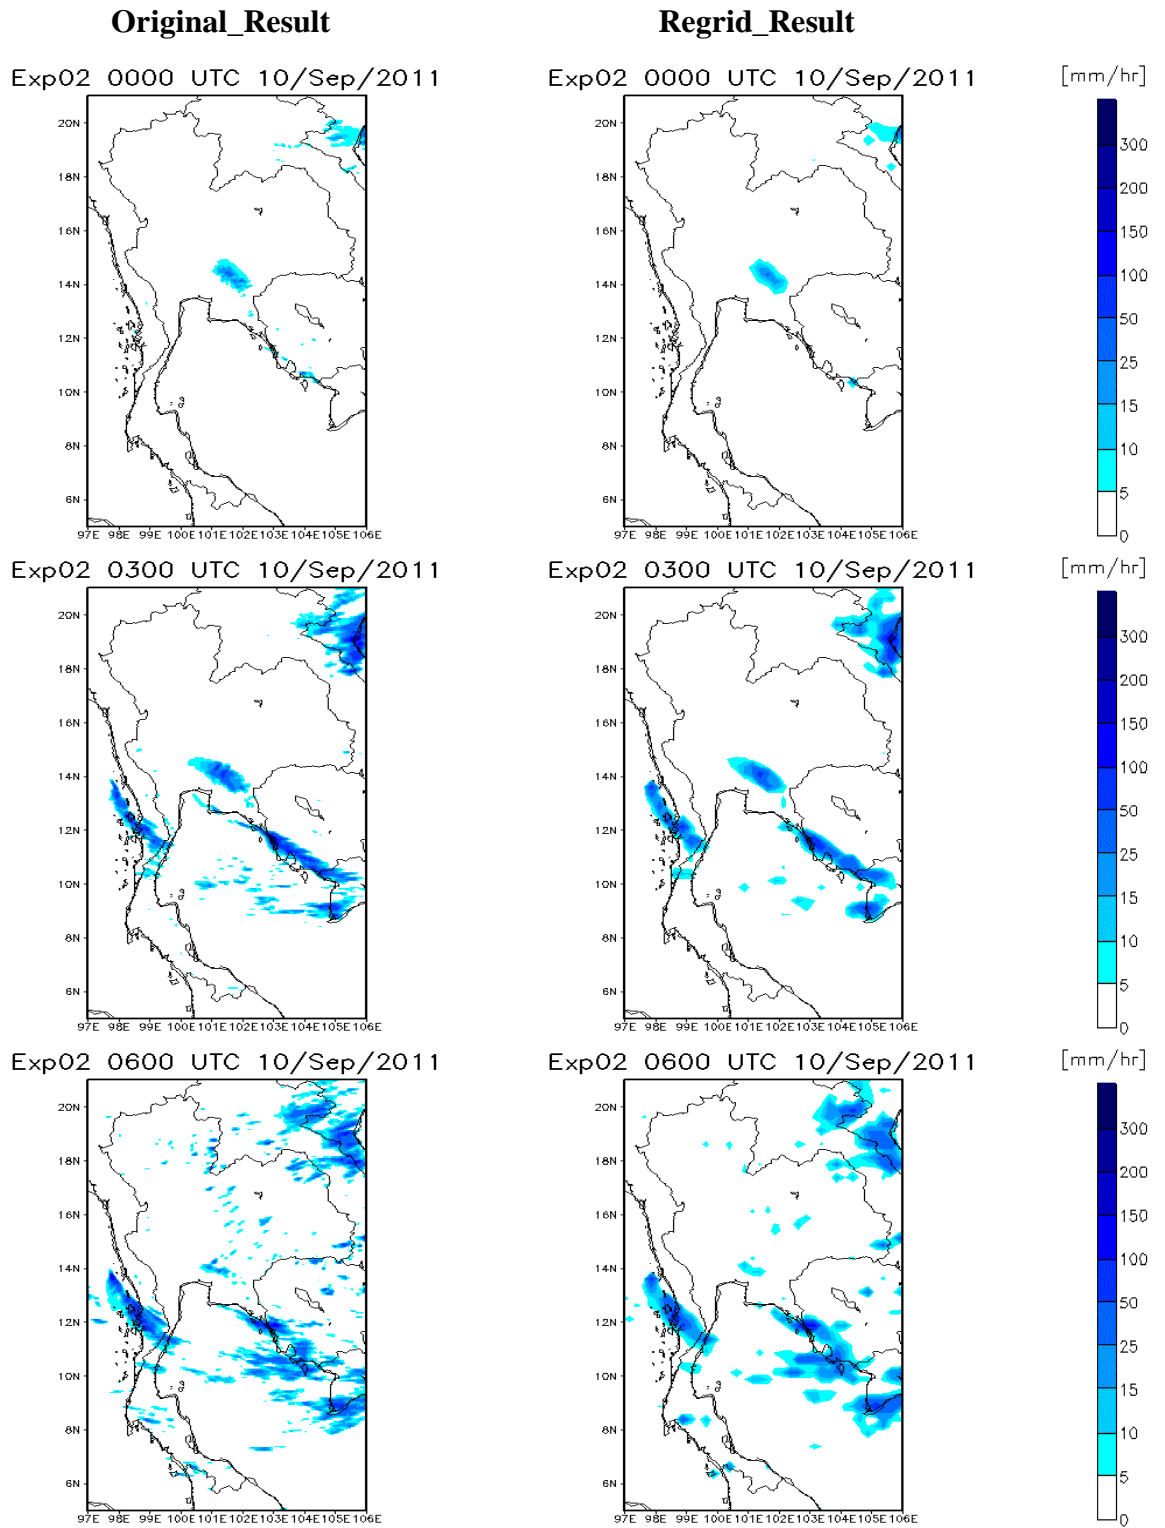

Figure B04 The comparison of rainfall distribution pattern between the original results and re-gridding results during 0000 UTC to 0600 UTC 10 September 2011 of Exp02

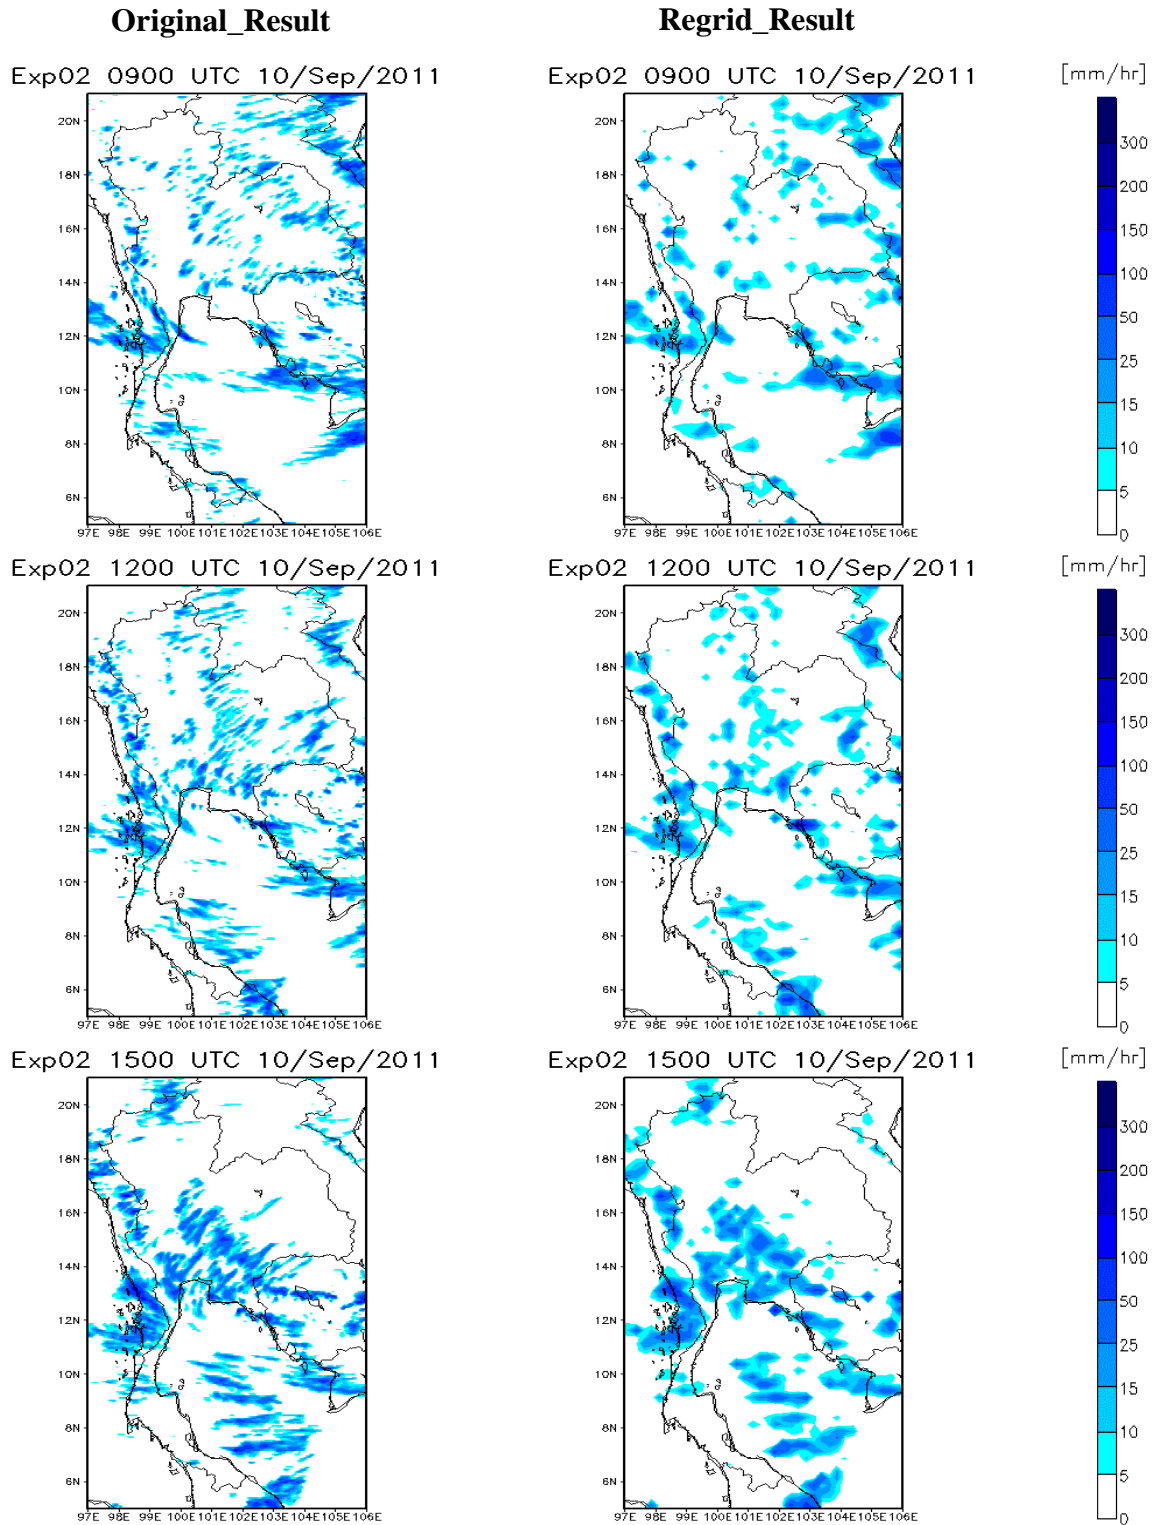

Figure B05. The comparison of rainfall distribution pattern between the original results and re-gridding results during 0900 UTC to 1500 UTC 10 September 2011 of Exp02

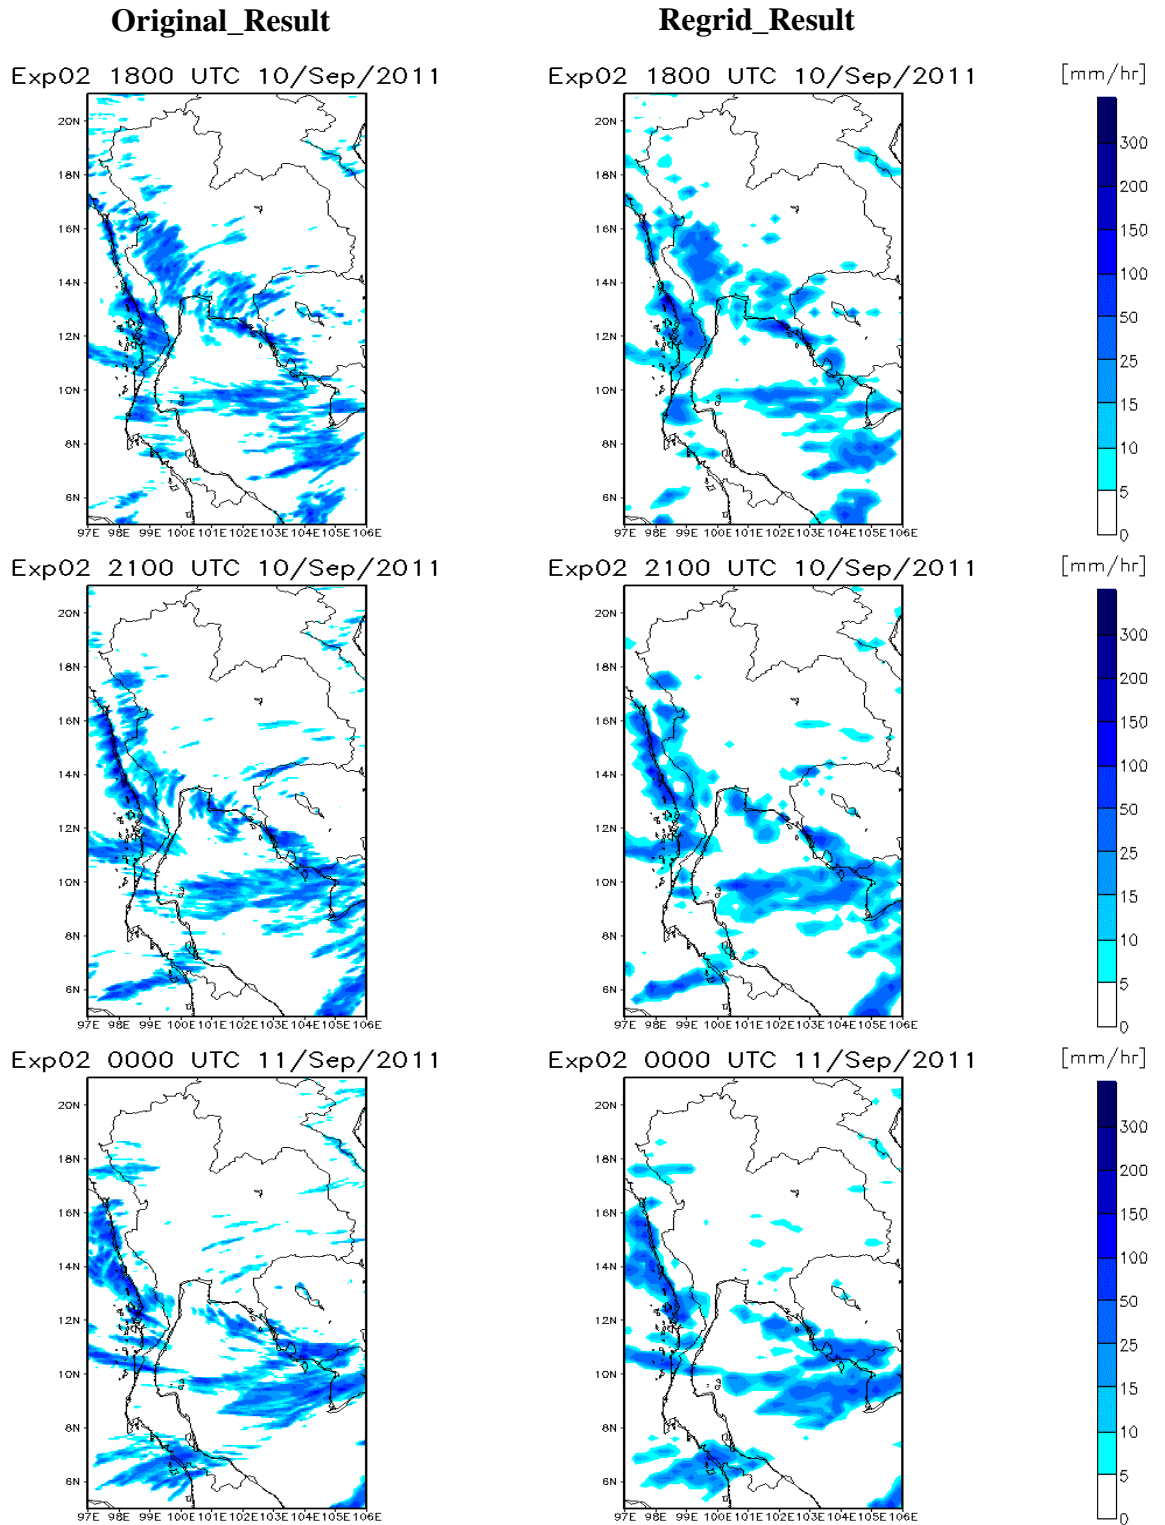

Figure B06. The comparison of rainfall distribution pattern between the original results and re-gridding results during 1800 UTC 10 September 2011 to 0000 UTC 11 September 2011 of Exp02

The comparison of spatial pattern between the original results and re-gridding results on 10th September 2011 of Exp03

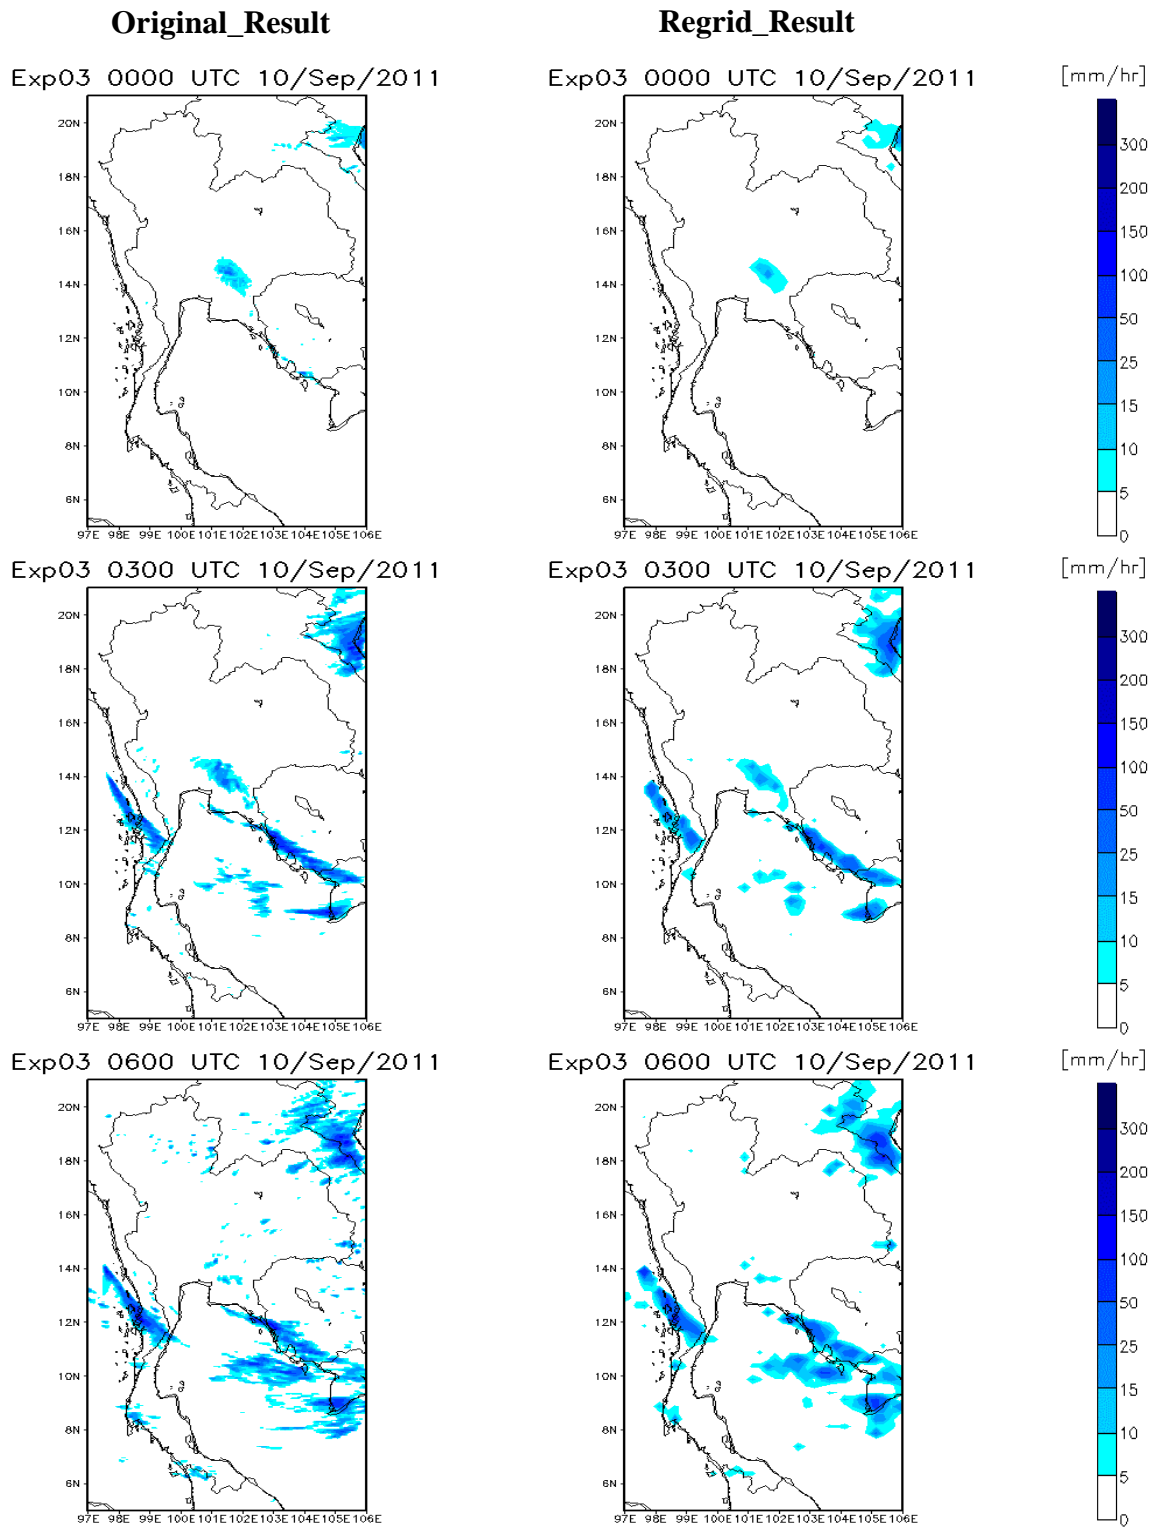

Figure B07. The comparison of rainfall distribution pattern between the original results and re-gridding results during 0000 UTC to 0600 UTC 10 September 2011 of Exp03

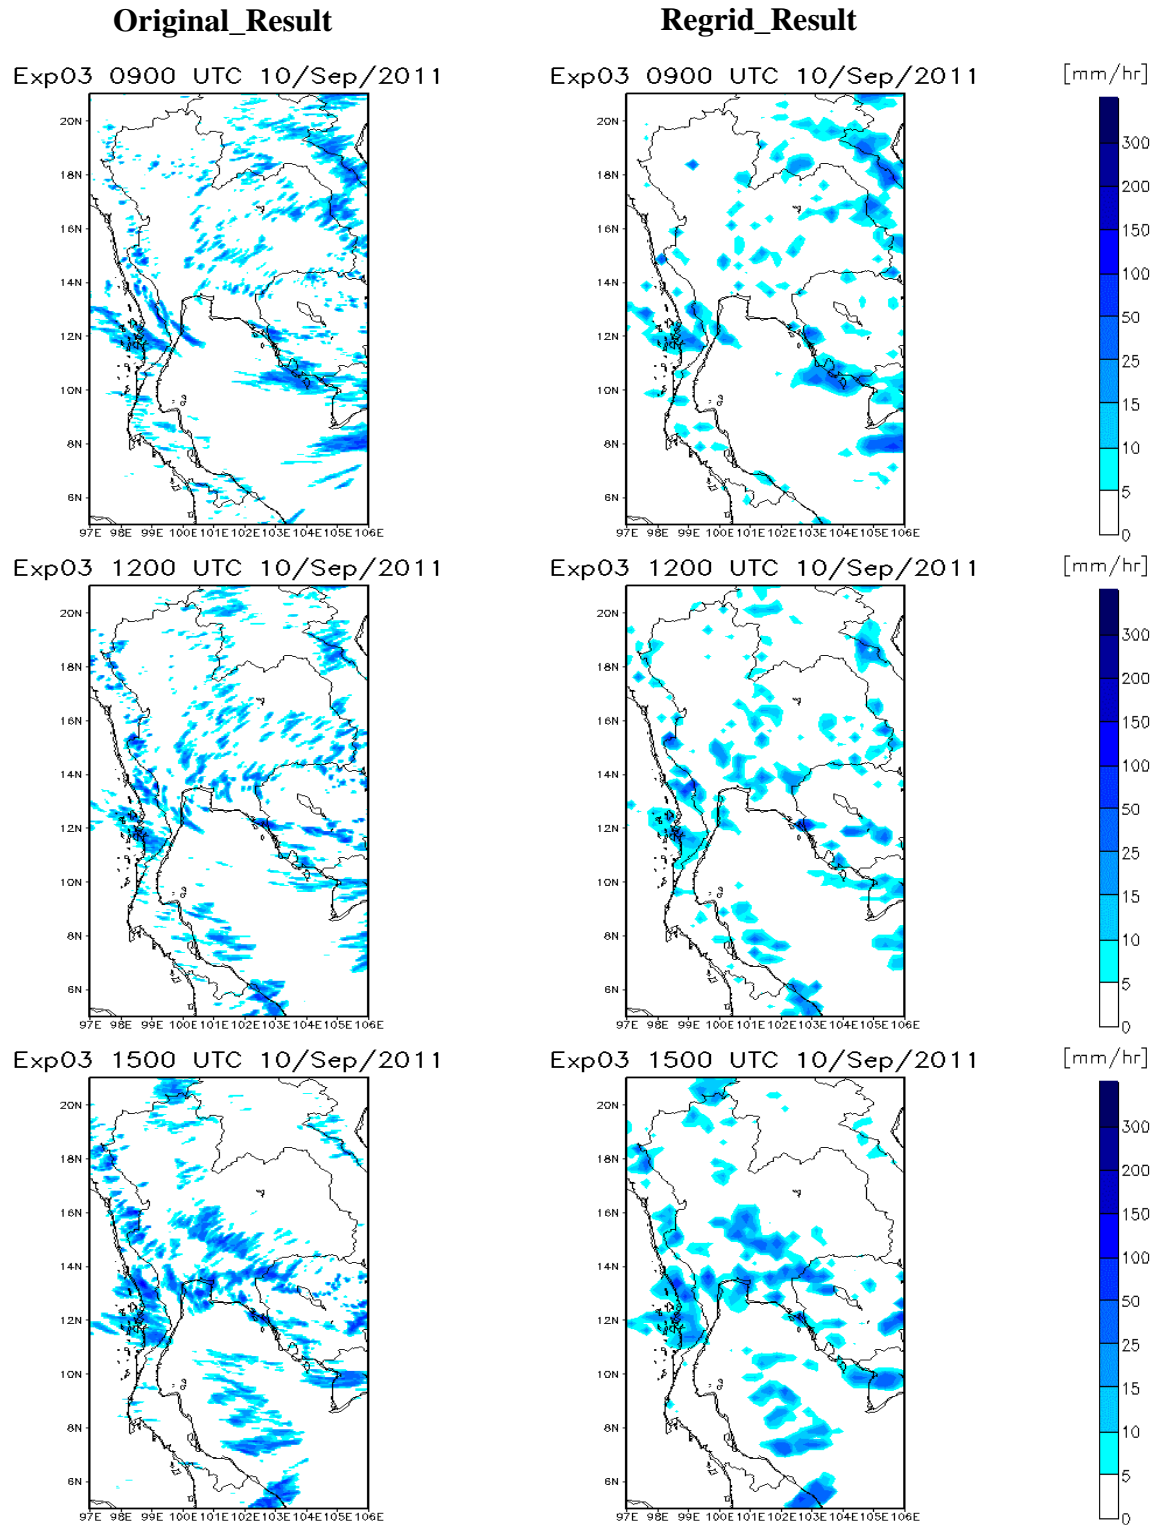

Figure B08. The comparison of rainfall distribution pattern between the original results and re-gridding results during 0900 UTC to 1500 UTC 10 September 2011 of Exp03

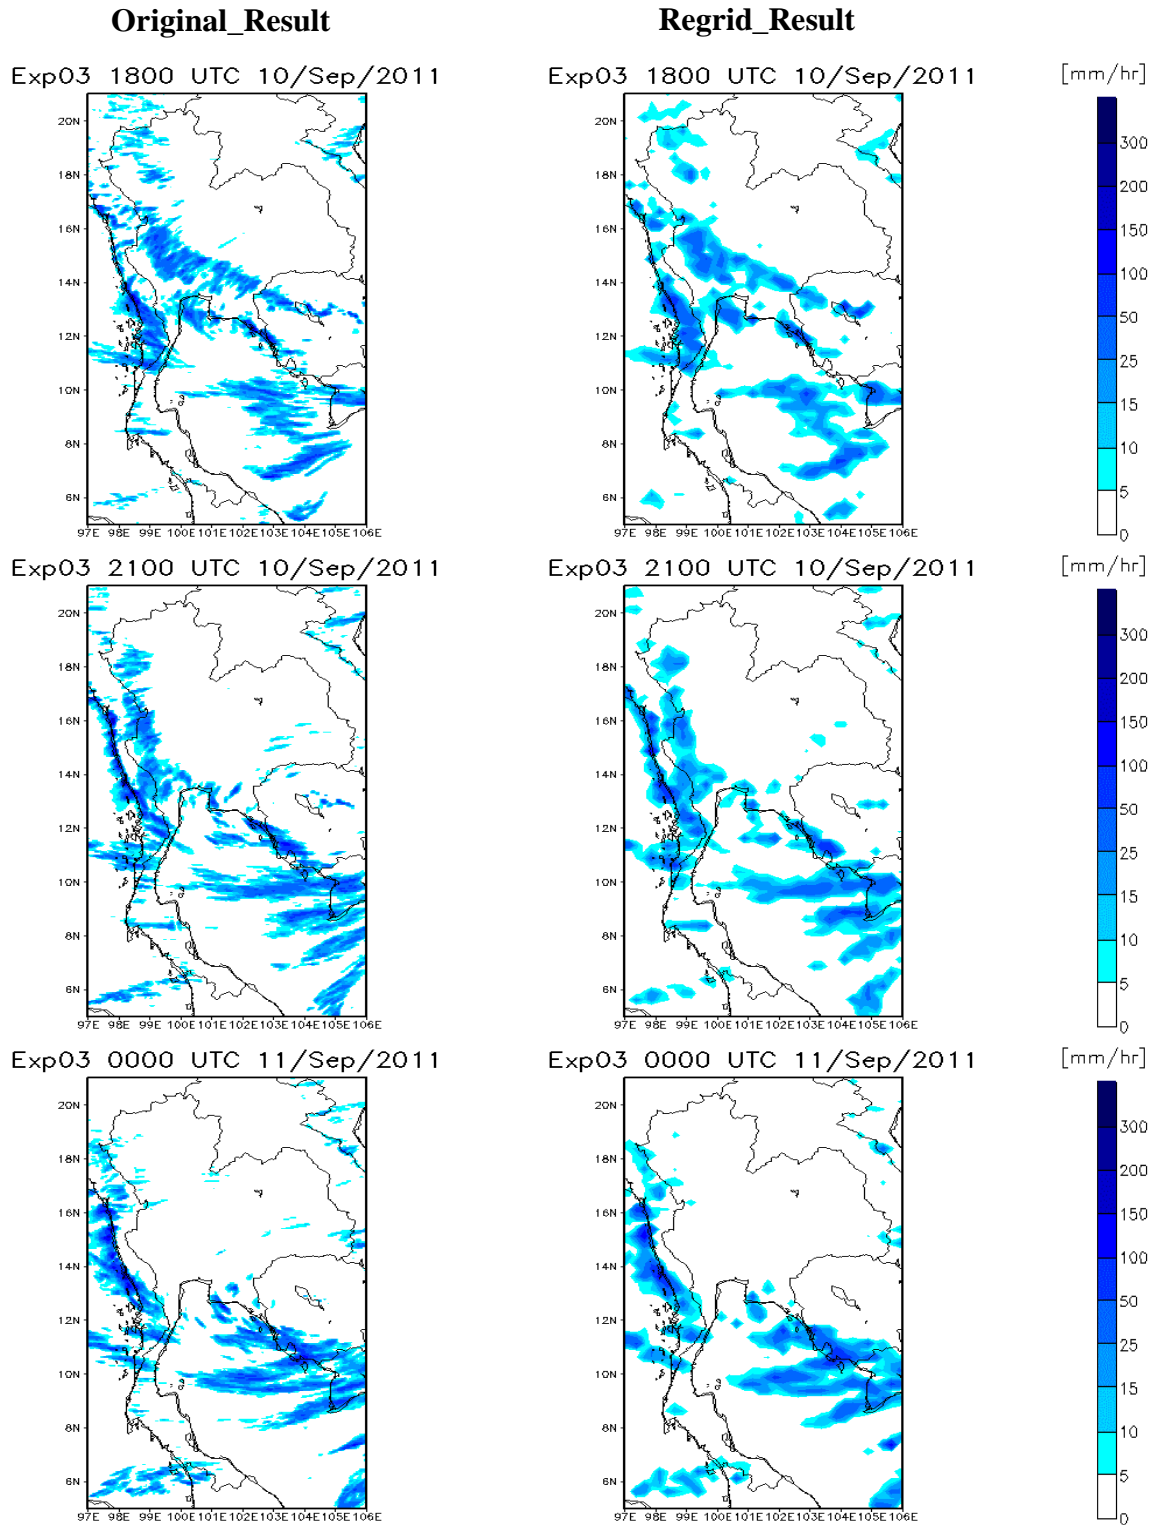

Figure B09. The comparison of rainfall distribution pattern between the original results and re-gridding results during 1800 UTC 10 September 2011 to 0000 UTC 11 September 2011 of Exp03
