

APPENDIX C

**The Comparison of Spatial Pattern between the Original Results and
Re-gridding Results on 23th November 2011 of Exp01, Exp02 and
Exp03**

The comparison of spatial pattern between the original results and re-gridding results on 23th November 2011 of Exp01

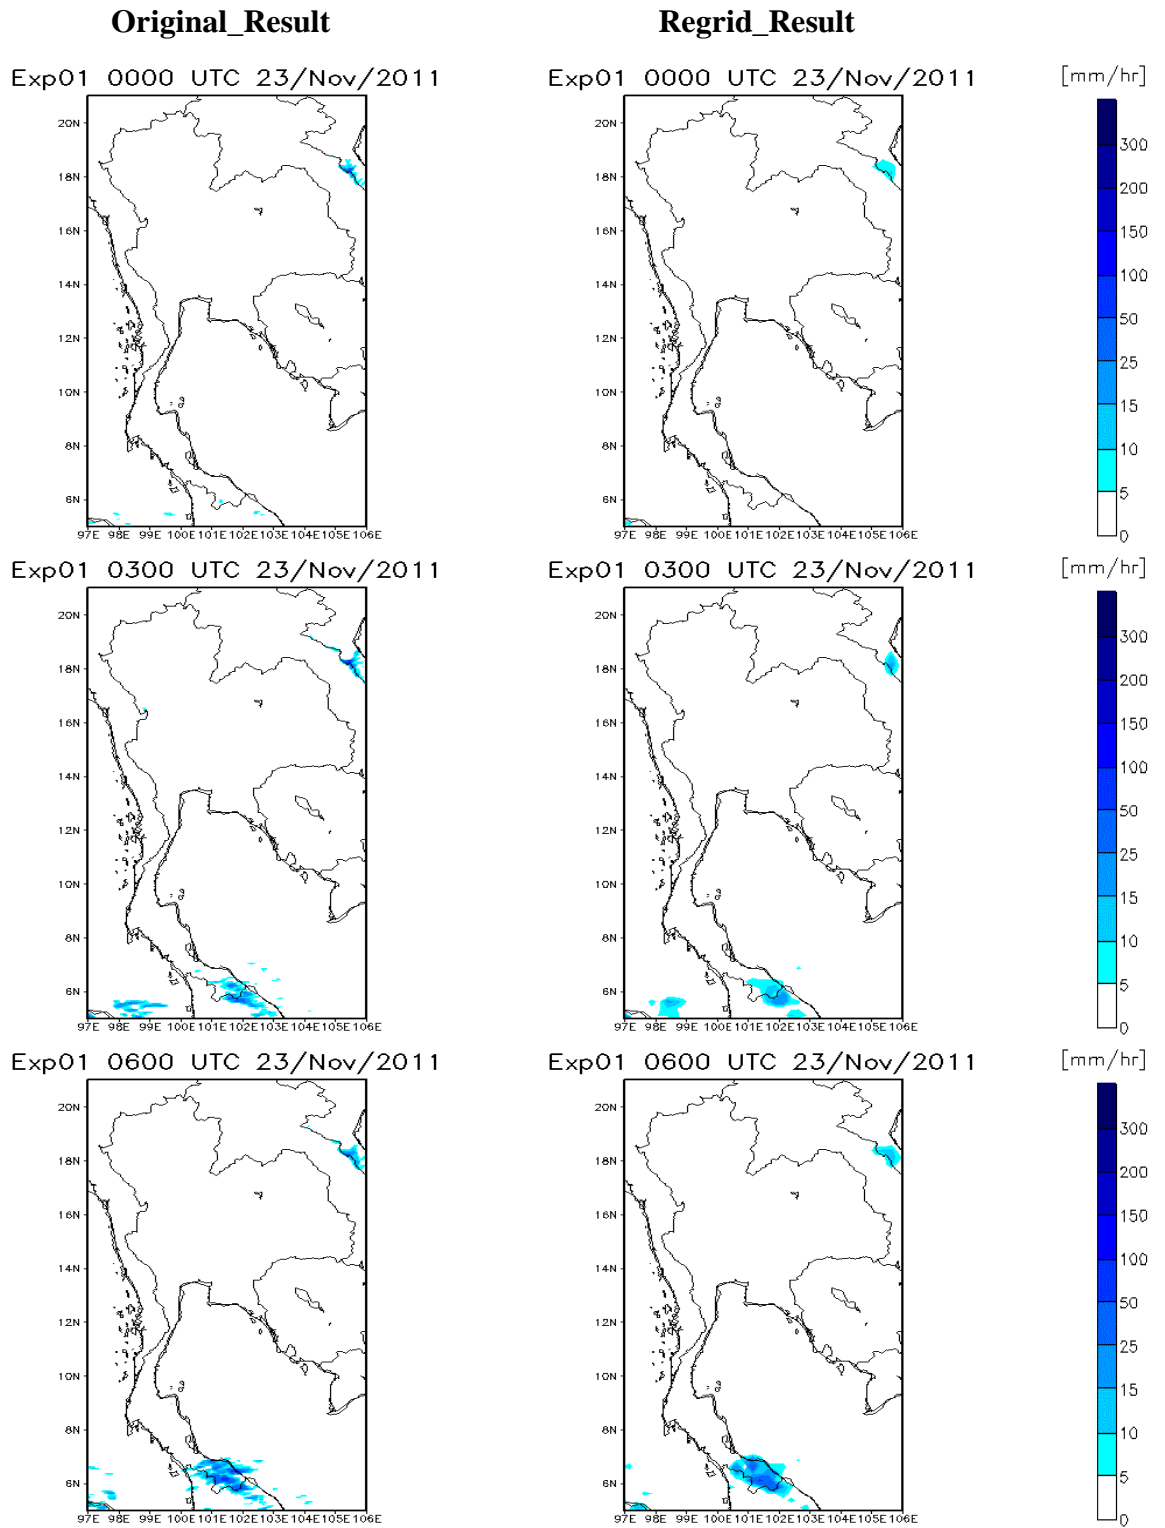

Figure C01. The comparison of rainfall distribution pattern between the original results and re-gridding results during 0000 UTC to 0600 UTC 23 November 2011 of Exp01

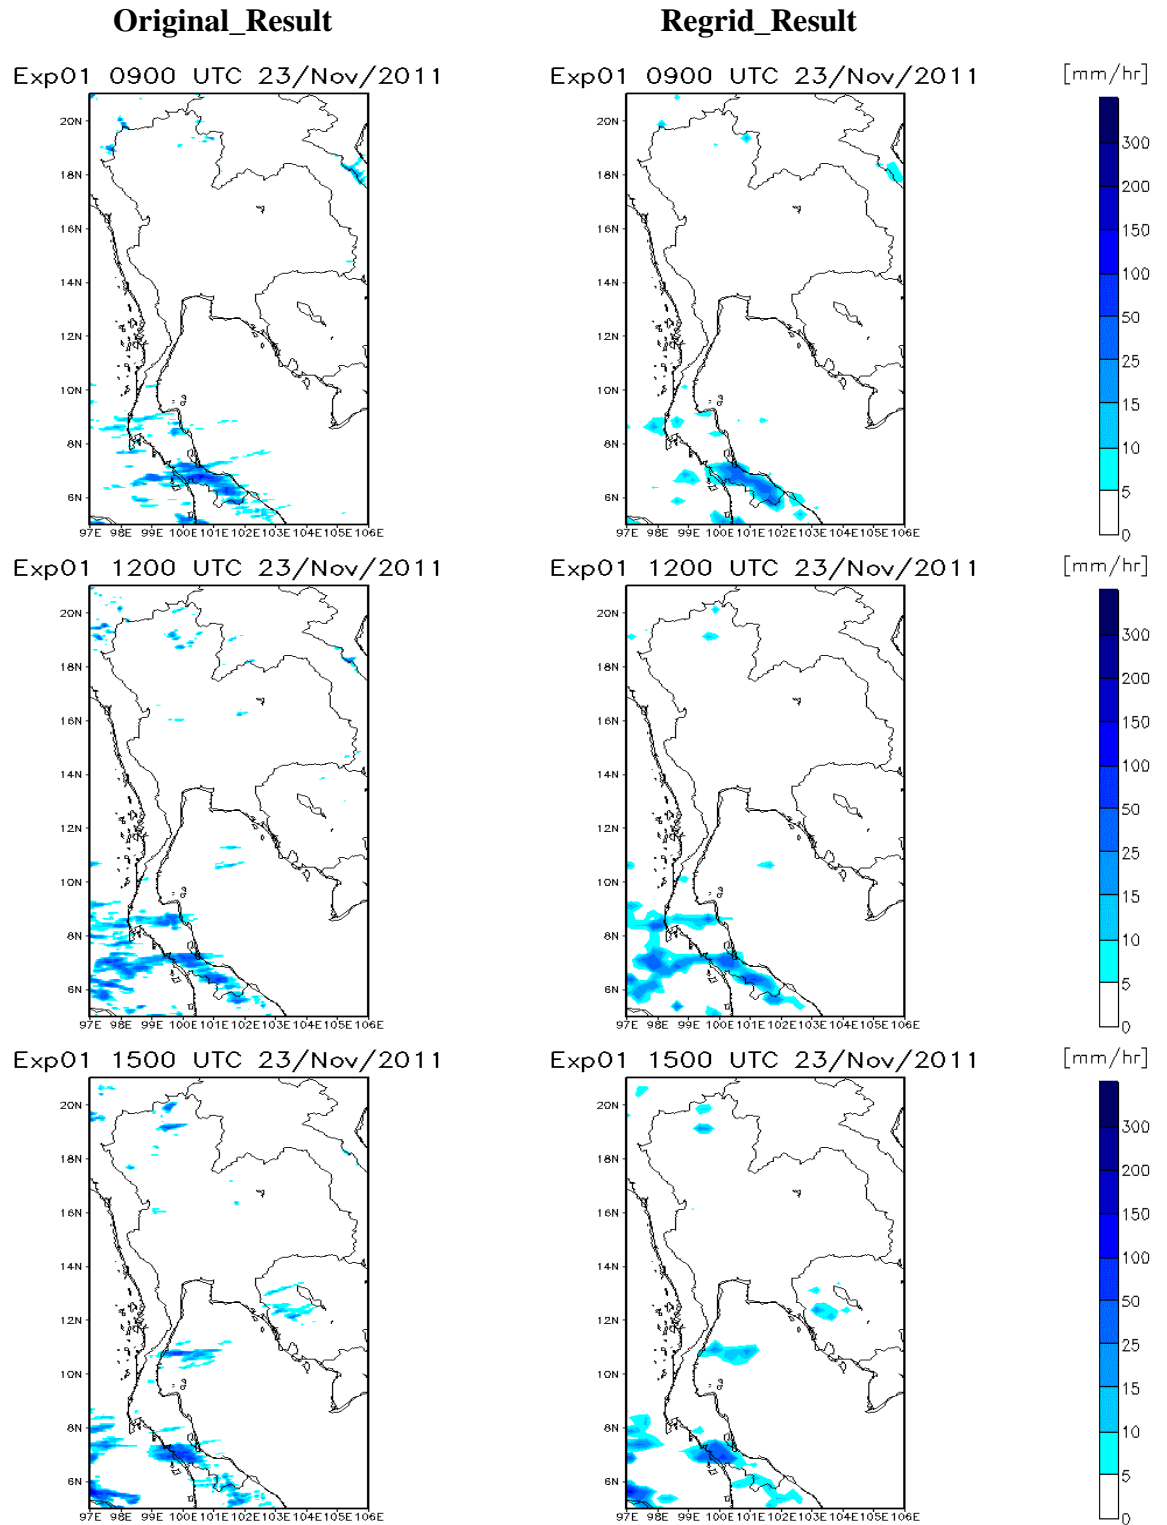

Figure C02. The comparison of rainfall distribution pattern between the original results and re-gridding results during 0900 UTC to 1500 UTC 23 November 2011 of Exp01

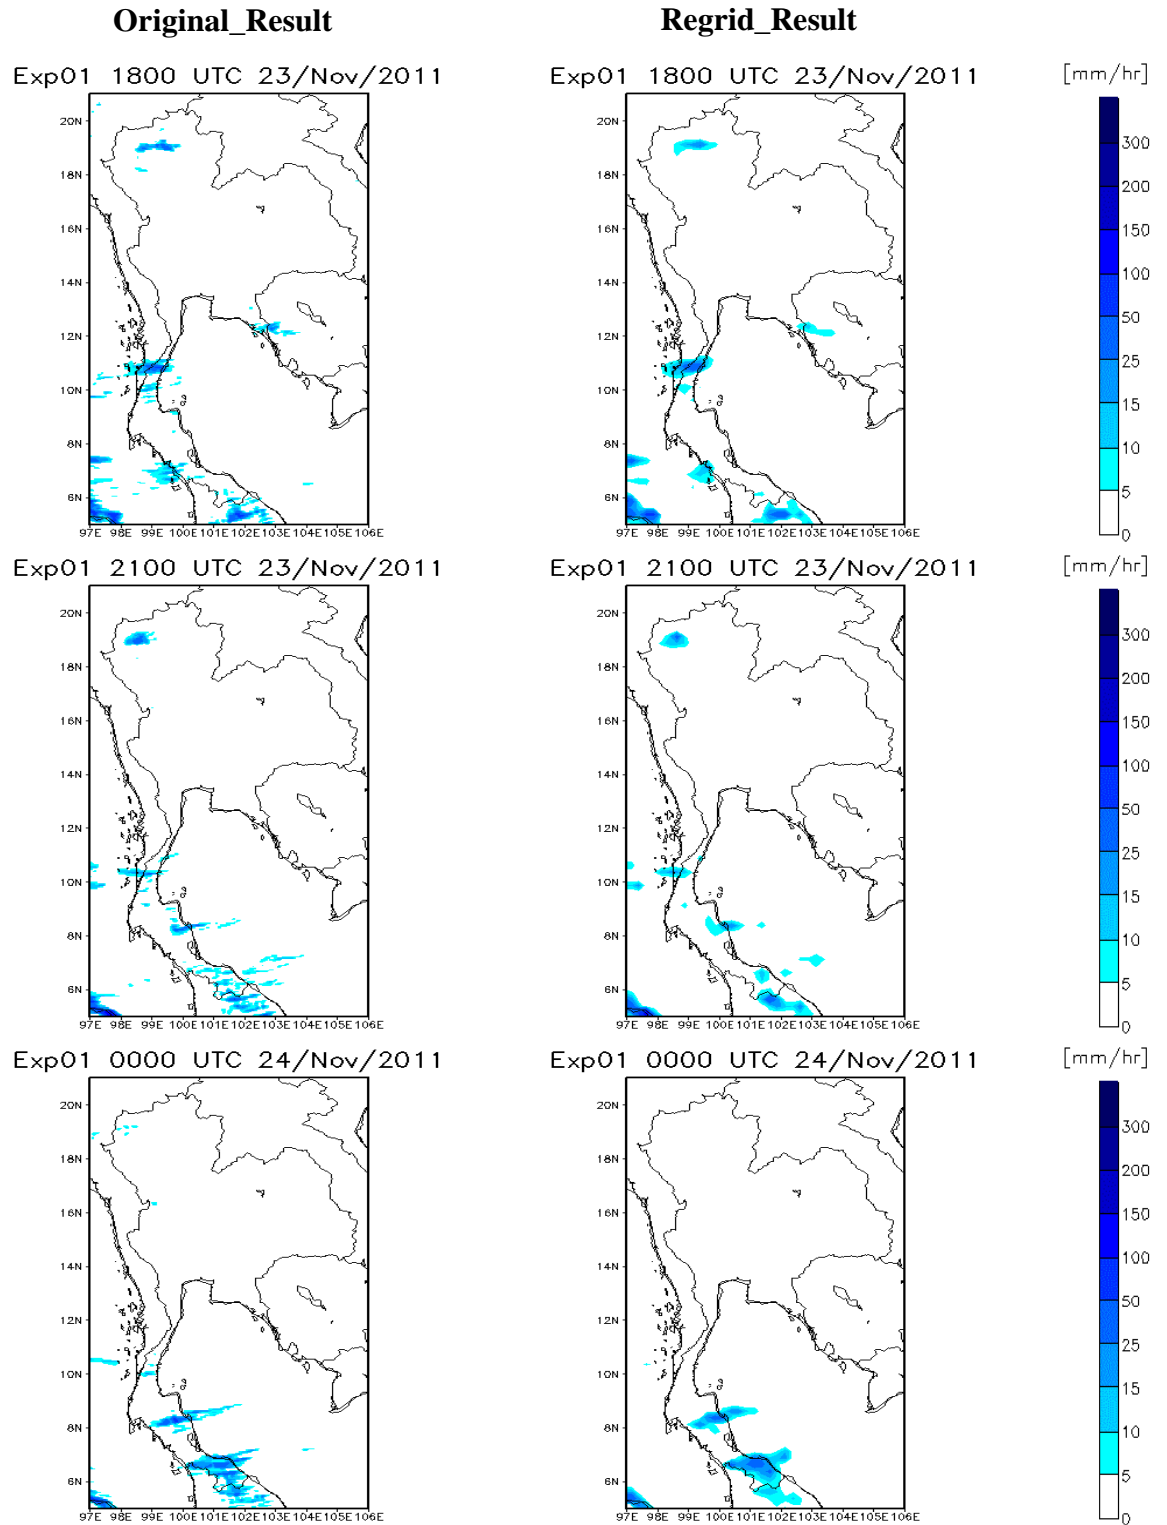

Figure C03. The comparison of rainfall distribution pattern between the original results and re-gridding results during 1800 UTC 23 November 2011 to 0000 UTC 24 November 2011 of Exp01

The comparison of spatial pattern between the original results and re-gridding results on 23th November 2011 of Exp02

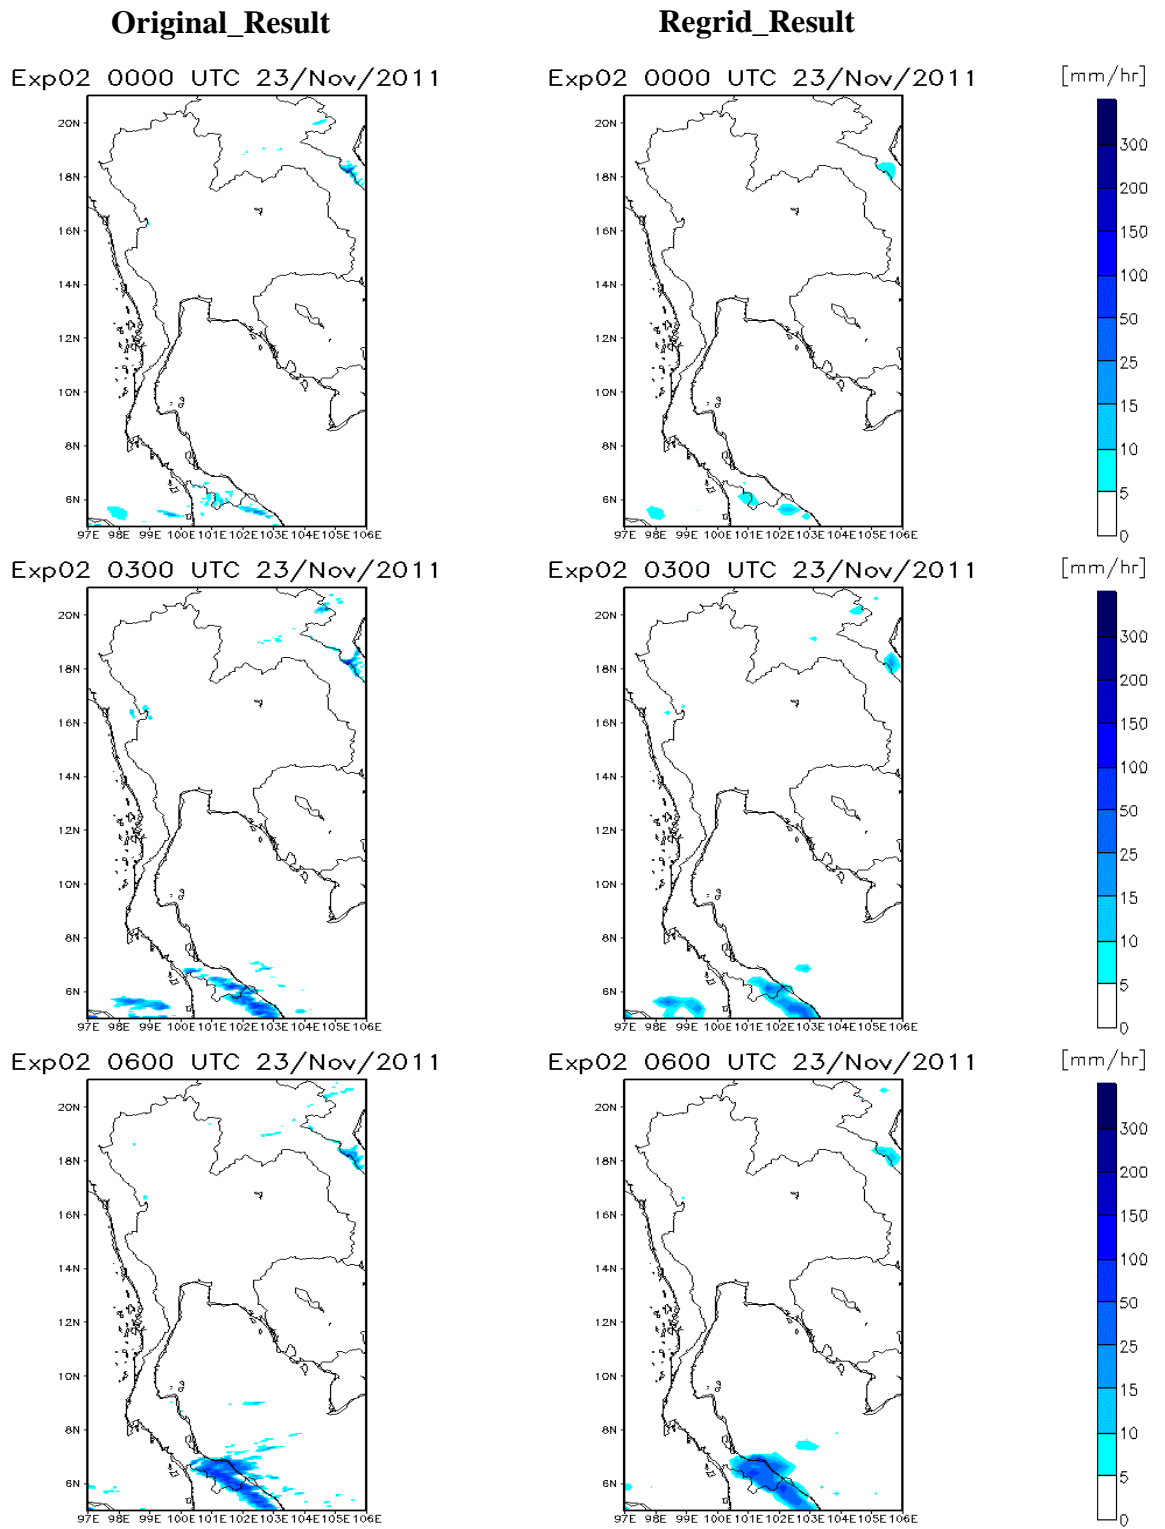

Figure C04. The comparison of rainfall distribution pattern between the original results and re-gridding results during 0000 UTC to 0600 UTC 23 November 2011 of Exp02

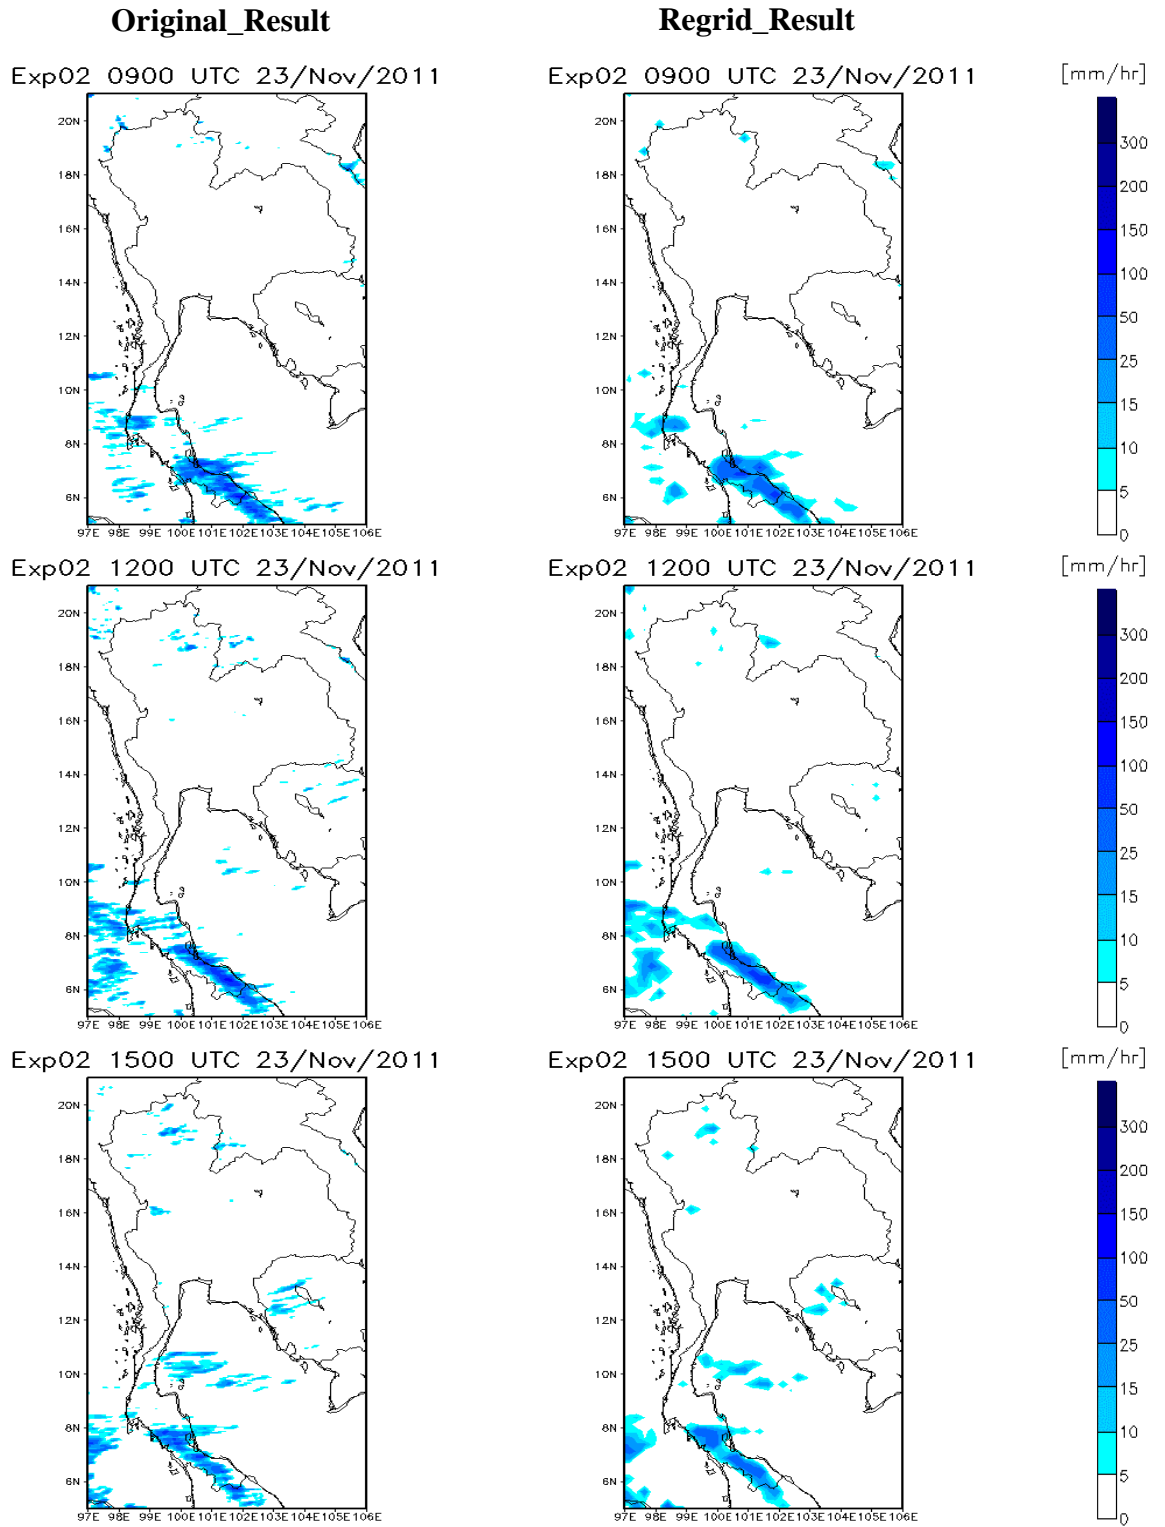

Figure C05. The comparison of rainfall distribution pattern between the original results and re-gridding results during 0900 UTC to 1500 UTC 23 November 2011 of Exp02

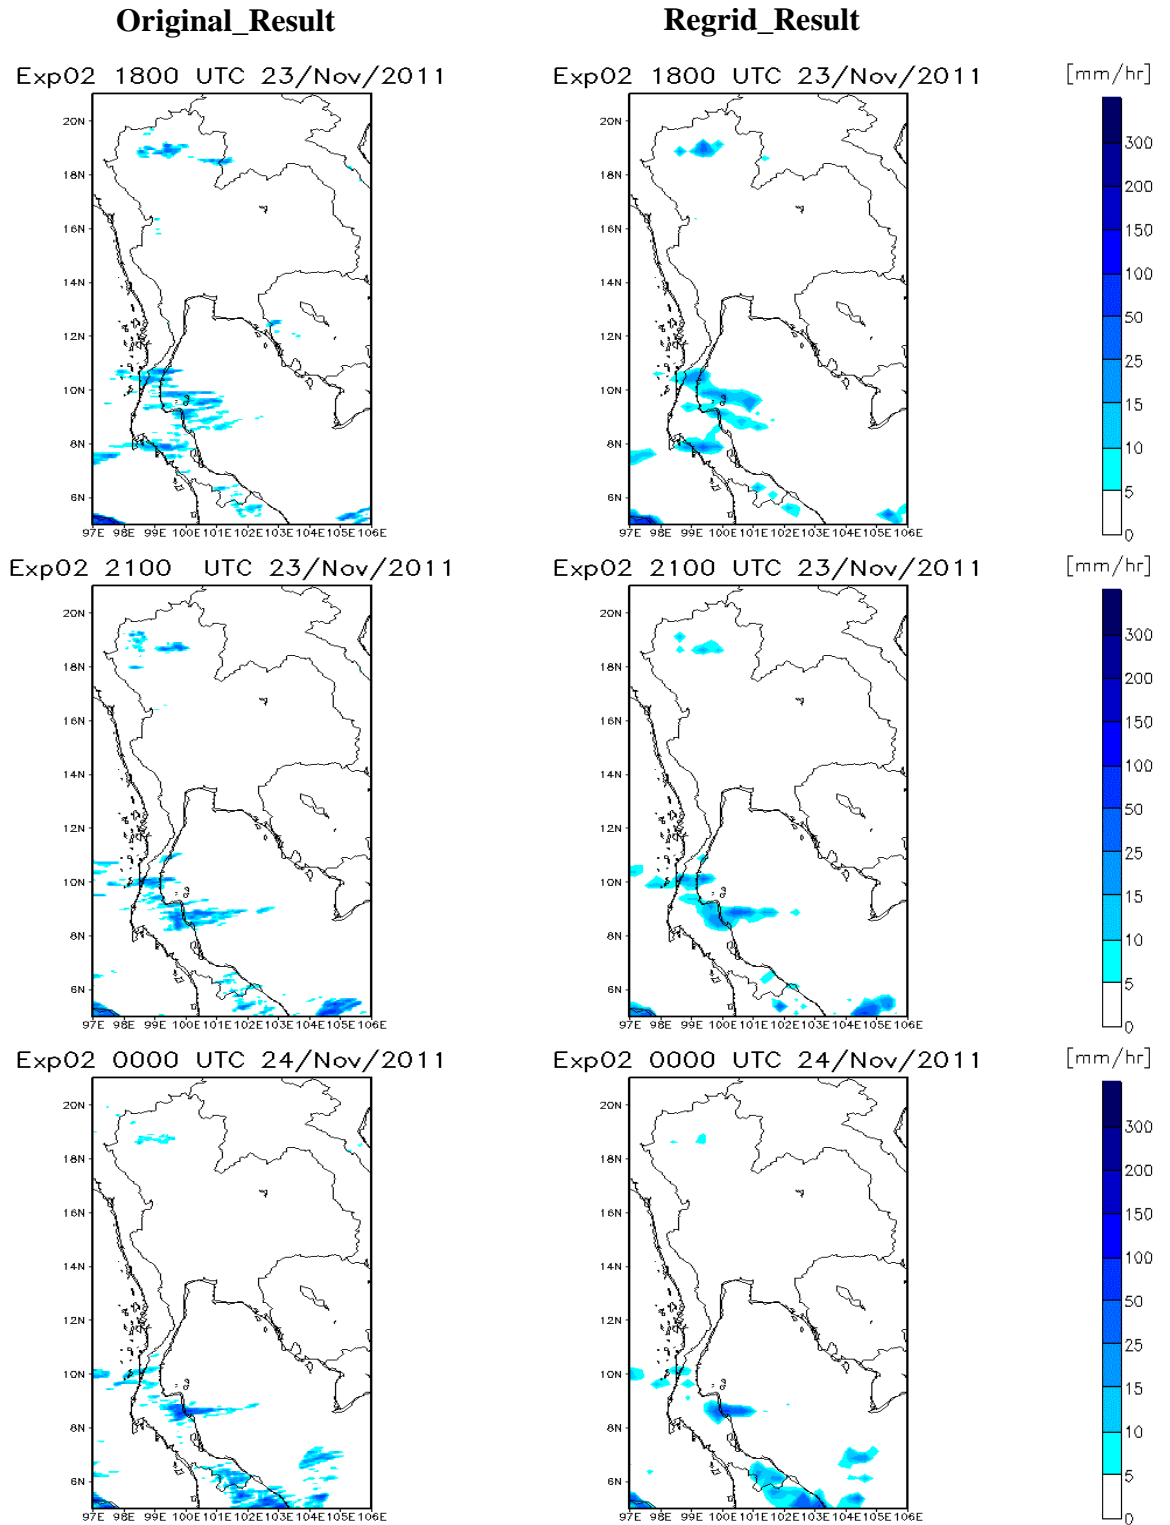

Figure C06. The comparison of rainfall distribution pattern between the original results and re-gridding results during 1800 UTC 23 November 2011 to 0000 UTC 24 November 2011 of Exp02

The comparison of spatial pattern between the original results and re-gridding results on 23th November 2011 of Exp03

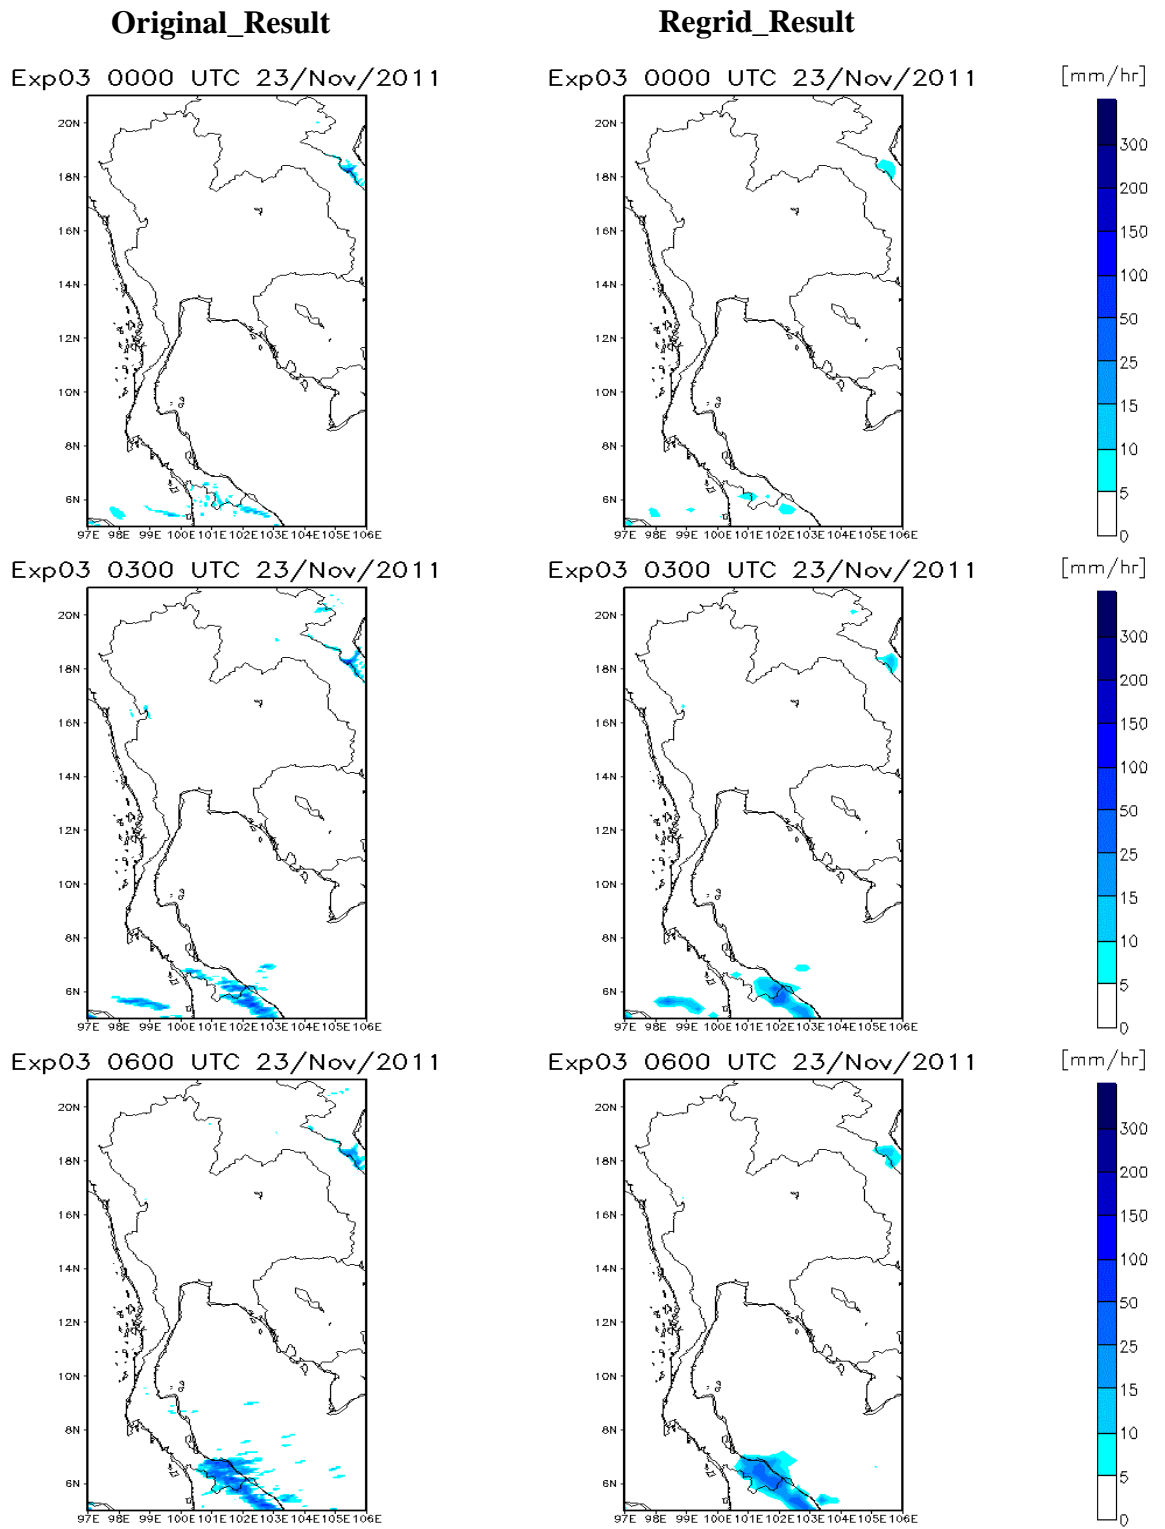

Figure C07. The comparison of rainfall distribution pattern between the original results and re-gridding results during 0000 UTC to 0600 UTC 23 November 2011 of Exp03

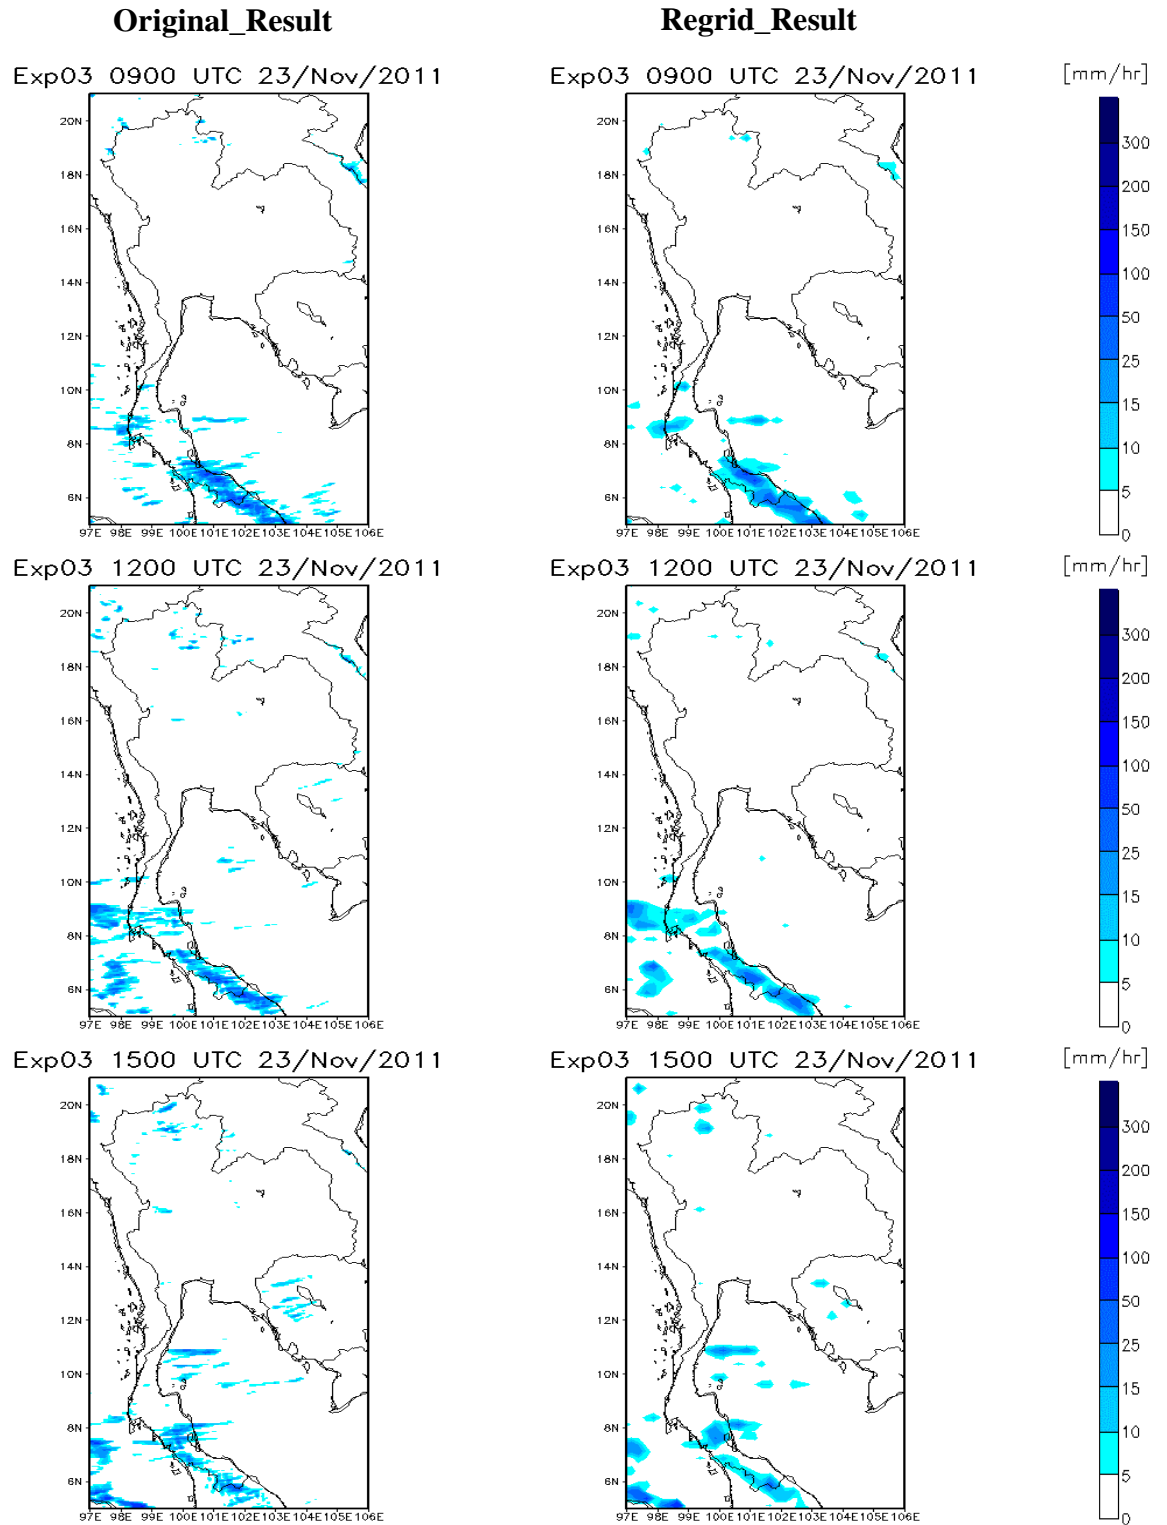

Figure C08. The comparison of rainfall distribution pattern between the original results and re-gridding results during 0900 UTC to 1500 UTC 23 November 2011 of Exp03

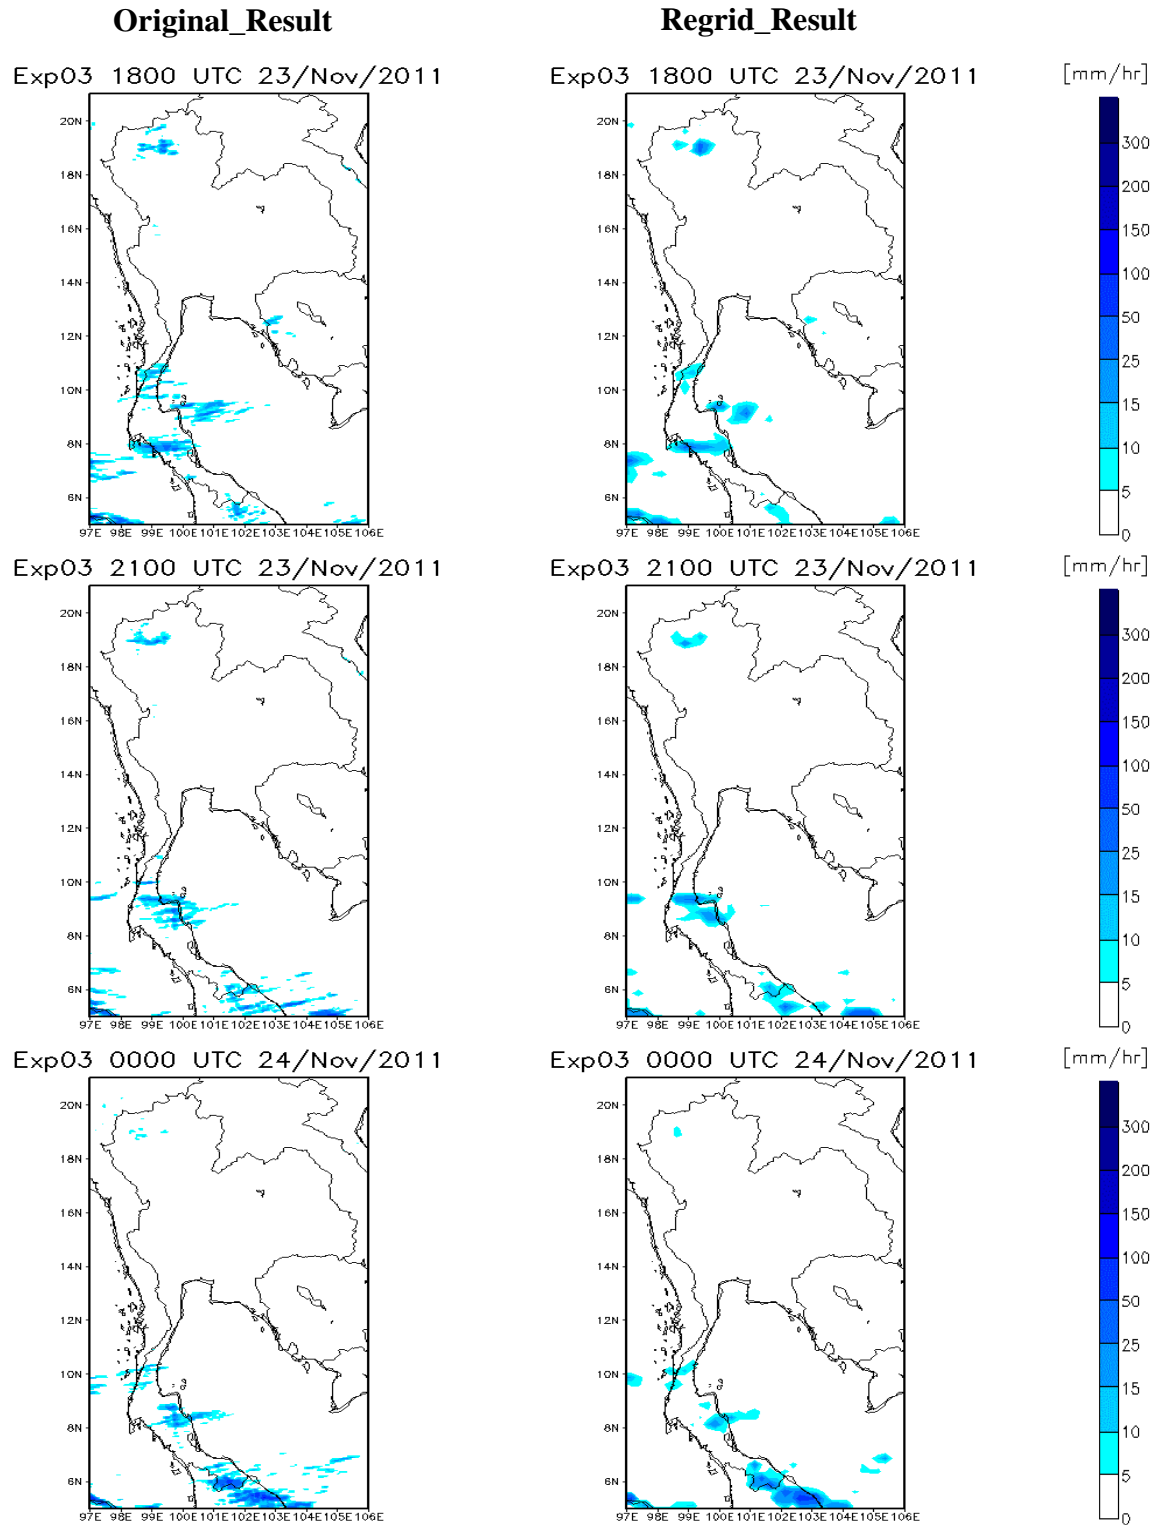

Figure C09. The comparison of rainfall distribution pattern between the original results and re-gridding results during 1800 UTC 23 November 2011 to 0000 UTC 24 November 2011 of Exp03
