

ACKNOWLEDGEMENTS

I would like to thank many people who have helped me along the way to my Ph.D. and made my time here at King Mongkut's University of Technology Thonburi (KMUTT), especially in the Remediation laboratory.

I would like to special thanks to Assoc. Prof. Dr. Paitip Thiravetyan for her advice, encouragement and direction.

I would like to thank Prof. Dr. Chongrak Polprasert, Asst. Prof. Dr. Siriluk Chiarakorn and Dr. Prapat Pongkiatkul for their suggestions in progress examination and thesis defences.

I would like to thank Prof. Neil C. Bruce of The University of York, UK who gave a gold chance for me to practice the molecular techniques and help me everything during I stayed in York.

I would like to thank Dr. Liz Rylott and Maria Razalan for suggestions for molecular techniques. I appreciate her time spent teaching me.

I would like to thank my friends in the Remediation and the Bruce laboratory for friendship and scientific training.

I would like to thank the Thailand Research Fund through the Royal Golden Jubilee Ph.D. Program and King Mongkut's University of Technology Thonburi for supporting.

I would like to thank the Higher Education Research Promotion and National Research University Project of Thailand, Office of the Higher Education Commission for supporting.

Finally, I would also like my parent for their constant motivational support, positivity and encouragement.
