## **ABSTRACT**

The Purpose of this thesis was to study roles of Parents and Teachers. Association on colleges supports under the Department of Vocational Education in 5 categories : materials and instrument, academics, Welfares, activities and relation community by separating into college administrators and administrative committees of the association. Population were 20 colleges 160 administrators and the association. The questionnaires were distributed to them and then analyzed by using percentage, Standard Deviation. The results were as follow ;

1. The opinions of college administrators and association committees on colleges administrative supports, both in wholistic and in items, from more supports to less supports, namely, activities, welfares, materials and instrument relation community and in wholistic, were in average level.

2. There was no significant difference in the opinions of the college administrators and the association committees on colleges administrative supports, both in wholistic and in items.
