ABSTRACT

The study on “Administration of Phuket Province for Development” aimed at examining and analyzing the situation and problem of the present administration of Phuket province as well as presenting the development pattern of future Phuket. The study was a qualitative research in which obtained the information from various documents, emphasis on in-depth interview from target person. The data was analyzed and synthesized by the experts from the management level of Phuket province and applied them for the sustainable Phuket development factors. The sample of the study was drawn from 22 experts in management level, academic officers, businessman, and member of parliaments. The data analysis was divided into two stages. The first stage was the documentary analysis and in-depth interview in order to summarize the situation and problem framework found from the present Phuket administration both wide and depth. The second stage was the group data analysis and synthesized them into components and factors for the sustainable Phuket administration

The results of the study suggested the Phuket development as the “THE GREAT PEARL” in which T means Good team leader, H means High up Sustainable Development, E means Enable to Build Understanding for The Provincial Department Quality, G means Good Governance, R means Regulation by Laws, E means Efficiency Administration by Oneself, A means Assurance Security, T means Tax Administration, P means Participation and Collaboration, E means Effective Transportation System, A means Audit Government Sector, R means Results of Efficiency Administrative, and L means Leader for Changes respectively.
