LIST OF TABLES	x
LIST OF FIGURES	xi
 CHAPTER	
1. INTRODUCTION	1
1.1 Background and Rationale	2
1.2 Objective of Study	2
1.3 Scope of Study	2
1.4 Expected Output/Outcome	3
 2. THEORY AND LITERATURE REVIEWS	4
2.1 Shrimp	4
2.1.1 Shrimp Cultivation in Thailand	4
2.1.2 Shrimp Life Cycle	6
2.2 Type of Shrimp Cultivation	7
2.2.1 Extensive Aquaculture	7
2.2.2 Semi-intensive Aquaculture	7
2.2.3 Intensive Aquaculture	7
2.3 Factors affecting Shrimp Quality	8
2.3.1 Water Quality	8
2.3.2 Microbial Community during Shrimp Cultivation	9
2.4 General Problems in Shrimp Cultivation	10
2.4.1 Ammonia and Nitrite	10
2.4.2 Ammonia and Nitrite Toxicity	11
2.5 Mechanism for Nitrogen Controlling in Shrimp Cultivation System	11
2.5.1 Water exchange	11
2.5.2 Nitrification	12
2.5.3 Phytoplankton Uptake	13
2.6 Removal of Nutrients by Immobilized Microalgae	14
2.7 Molecular Techniques for Microbial Community Analysis	15
2.7.1 Cloning of 16S rDNA	16
2.7.2 Denaturing Gradient Gel Electrophoresis (DGGE)	16
 3. MATERIALS AND METHODS	19
3.1 Experimental Set up	19
3.1.1 Experimental set up in shrimp hatchery	19
3.1.2 Experimental set up in shrimp farming (grow-out/earthen pond)	20
3.2 <i>Spirulina</i> mat Preparation	20
3.3 The Closed-recirculation system	21

	PAGE
3.4 Shrimp Quality Measurement	22
3.5 Water Quality Measurement	23
3.5.1 Determination of total ammonia nitrogen	23
3.5.2 Determination of nitrite (NO ₂ -N)	23
3.5.3 Ammonia and nitrite oxidation test	24
3.6 Microbial Community Profiling by DGGE	24
3.6.1 DNA extraction	25
3.6.2 DNA amplification by PCR	26
3.6.3 Denaturing gradient gel electrophoresis (DGGE)	27
3.6.4 Phylogenetic analysis	27
4. RESULTS AND DISCUSSION	28
4.1 Dynamic of Microbial Community during Shrimp Cultivation	28
4.1.1 Changes of Microbial Community with Different Cultivating Condition	28
4.1.2 Microbial community in the co-culturing with <i>Spirulina</i> mats system	42
4.1.3 Effect of <i>Spirulina</i> mats on water quality and water exchange rate	44
4.1.4 Effect of <i>Spirulina</i> mats on the shrimp PL quality	47
4.2 Dynamic of Microbial Community during Shrimp Growing Period	50
4.2.1 Application of <i>Spirulina</i> Mats in Shrimp Earthen Pond	50
4.2.2 Microbial Community Profiling during Shrimp Cultivation Period	50
4.2.3 Phylogenetic Analyses of Microbial Community of Water column in Grow-out Pond	54
4.2.4 Water Quality during Shrimp Growing Period	61
4.2.5 Effect of Cultivation Period on Total Ammonia Nitrogen in Water Column	62
4.2.6 Comparison of Nitrification Activity	64
4.2.7 Correlation between Microbial Community and Nitrification Activity Test	66
4.2.8 Shrimp Quality and Feed Conversion Ratios during Shrimp Cultivation	67
4.3 Comparison of Water Quality and Microbial community in Hatchery and Grow-Out (Earthen) Ponds	67
4.3.1 Comparison of Water Quality in Hatchery and Grow- Out (Earthen) Ponds	68
4.3.2 Comparison of Microbial Diversities between in Hatchery and Grow-Out Ponds	70
5. CONCLUSIONS AND RECOMMENDATION	73
5.1 Conclusion	73
5.2 Recommendations	74
