

ACKNOWLEDGEMENTS

I would like to express my grateful thanks to many people who encouraged and help me throughout the course of this study: Dr. Dusadee Sukawat, my thesis supervisor, for his great elaborate guidance, friendly encouragement and tolerance with problem solving during the course of study. I am also grateful to the members of the examination committee, Asst. Prof. Dr. Anirut Luadsong and Dr. Wibulsak Wattayu from the Department of Mathematics, and Dr. Sugunyanee Yavinchan from the Thai Meteorological Department for their valuable comments and suggestions.

Also, I am gratefully indebted to all the lecturers who have taught me. Sincere thanks are extended Miss Duenpen Kirdnark and Mrs. Peangpit Rodpan for their kind assistance and encouragement. I would like to thank Dr. Wachiraporn Permpoonsinsup and Ronnchai Nonthochot for friendly helps whenever I need. Thank also to the Centre of Excellence in Mathematics, the Commission on Higher Education, and the Department of Mathematics, King Mongkut's University of Technology Thonburi for the financial support during the preparation of the thesis. Finally, I express my deep gratitude to my family who has always been my inspiration and my guiding light. They always support me with all their love.
