

## ACKNOWLEDGEMENT

Without the assistance and encouragement of many people, this thesis would not be accomplished. Hence, I would like to express my gratitude to all those who gave me the possibility to complete this industrious work.

First and foremost, I wish to acknowledge my advisor Dr. Jakrapong Uchupalanun for his invaluable guidance and generous support. I am deeply indebted with him for the inspiring and useful comments. I also would like to thank my thesis committee, Dr. Damisa Mookmanee and Dr. Sittisak Leelahanon, who provide me their valuable comments and discussion on concepts to develop the theoretical model thesis.

Moreover, all thankfulness should be given to the Faculty of Economics, Thammasat University and other archans who provide me the knowledge and warm attention at Thammasat University. I would like to give a special thank to Professor Pranee Tinakorn who encourage and support me to pursue the study in this program.

Special thanks to Archan Kittichai (P'Golf) who review my thesis and discuss any issues with me, as well as be my friend to apply for 2008 PhD programs in USA and Europe, Archan Wasin (P'Poo) to help me on Matlab codes, and Thiti (P'Kao) in providing useful comments on my organization of thesis.

Last but not least, my gratefulness should be shown to my MA closed friends who not only offer encouragement but always do a lot of activities with me: P'Pui, P'Bo, P'Pick, P'Kao, P'Mai, Aim, Jan, Golf, Poon. It is necessary to appreciate lovely MA friends who always give me a cheerfulness and consultation: P'Tao, P'Ton, P'Wit, P'Kai, P'Air, Rung, Champ, Lop, Jiw, Him, and other friends I do not address their name.

Finally, I deepest indebted my beloved family: my dad and my mom for their love and their confidence in my decision and my abilities. All supports through out my life from my family are appreciative in my mind all of my life as well.

If there are any deficiencies and errata in this thesis, they are solely my responsibilities.
