ACKNOWLEDGEMENTS

First of all, I would like to thank my advisors, Assoc. Prof. Booncharoen Sirinaovakul and Assoc. Prof. Boonruk Chipipop, for their guidance, helpful comments and patience, in reviewing my dissertation and giving me encouragement throughout the course of this work. I would like to extend my appreciation to all faculty members in the Department of Computer Engineering for providing their wide range of knowledge and experience in computer engineering during the entire Master Program.

Second, I would like to take this opportunity to say a big thank to Asst. Prof. Roungsan Chaisricharoen, Ph.D., who has always given me advice, guidance, and investigation this research with his capability, exertion and determination since my Bachelor program until present.

Lastly, I am very pleased to express my best gratitude to my family, especially my parents who always unwearyingly support me in every possible way.
